## NCAA seeks to stay Oklahoma City ruling

U.S. District Court Judge Juan C. Burciaga, who last week ruled that the 1982-85 NCAA Football Television Plan violated the Sherman Antitrust Act, has denied a motion to stay his ruling.

The motion and a notice of appeal were filed Friday in an Oklahoma City Federal court. The NCAA had asked the plaintiffs in the suit—the University of Georgia Athletic Association and the University of Oklahoma—to join it in asking for a stay, but the schools strongly opposed the request.

Attorneys for the Association today asked the 10th Circuit Court of Appeals in Denver to rule on the stay. A circuit-court decision on the motion for a stay is expected during the week.

Wiles Hallock, chair of the NCAA

### CFA claims vindication

The executive director of the College Football Association claims that the CFA was vindicated by Federal Judge Juan C. Burciaga's ruling against the NCAA Wednesday.

"To a large degree, the judge fully vindicated what the CFA attempted to do," Charles M. Neinas told the Associated Press. "What the judge has said, we've said from the beginning: The university owns its property

rights. No. 2, the university should be able to sell or assign those rights. No. 3, the NCAA should not be allowed to require an institution to give up those rights as an obligation to membership."

"Obviously, the NCAA position is going to be, 'Oh, my God, chaos,'" Neinas stated. "But the fact of the matter is, there is a certain order in life, and I'm sure this thing will shake down."

Football Television Committee, had the following comments in response to Burciaga's decision:

"NCAA football television controls have existed for 30 years because the vast majority of our member colleges

and universities have wanted it that way, for the benefit of the whole and a premier collegiate sport.

"This control and pooling of bargaining rights have been found reasonable and certainly no threat to the pub-

lic interest in other Federal and state courts and in other forums. There is precedence, surely, in the packaging of pro-sports-league television.

"If Judge Burciaga's sweeping opinion and order are permitted to stand, an important freedom of voluntary collective bargaining will have become a mockery. College football may become affordable for only a relative few, and the line of demarcation between those few and professional football will become blurred totally. A great American sport may become an endangered species.

"The NCAA membership is on the brink of the most equitable, profitable and beneficial TV plan yet approved and negotiated. It will be a shame if it is replaced by anarchy and diminished

returns and exposure for the majority of NCAA football-playing members."

In his opinion, Burciaga held that NCAA football television control "constitutes an horizontal agreement . . . to fix prices and restrict output . . . constitutes a group boycott" and that the NCAA "exercises monopoly power over college football television."

"The result of the NCAA's program of controls is quite obvious. Rather than letting the market operate freely, the NCAA has seriously restricted free-market forces in the economics of college football television," the judge wrote.

Burciaga cited regular-season college basketball, which is not regulated by an NCAA television plan, as an example of a free-market approach.

The decision was filed September 15 in an Oklahoma City Federal court. Burciaga, from Albuquerque, New Mexico, was brought in to hear the case after local judges excused themselves.

The suit originally was filed a year ago by Georgia and Oklahoma at the request of the College Football Association, as a class-action suit on behalf of the 61 CFA members, challenging the NCAA on the question of property rights in televising college football. Another property-rights suit brought by the University of Texas, Austin, ended last month in a Texas district court with a decision favorable to the NCAA.

After filing, however, Georgia and Oklahoma redirected their case to one based solely on antitrust charges. One week before the trial, CFA members voted to finance the trial strictly on a voluntary basis.

Attorneys for the plaintiffs challenged the NCAA football television plan, which encompasses two-network coverage by ABC and CBS, and a two-year supplementary cable television series with Turner Broadcasting System, Inc. The plan, according to the plaintiffs, violated the Sherman Antitrust Act by exercising a monopoly in a "relevant market," fixing prices to be paid for games and limiting the number of appearances a school can make.

Witnesses and attorneys for the NCAA argued that the controls were necessary to protect attendance, equitably distribute television revenues among the membership and prevent the development of a football television "aristocracy." NCAA lawyers stressed the flexibility of the plan, which allows schools to negotiate prices and switch playing dates to accommodate the networks.

Both sides had hoped the issue

## Decision that limits Title IX will stand

The Federal government will not appeal a decision by a Federal district court that places strict limitations on the Department of Education's power to enforce Title IX, according to a statement by William Bradford Reynolds, assistant attorney general for civil rights.

The July 8 decision by the U.S. District Court for the Eastern District of Virginia upheld the University of Richmond's position that its athletic program is not subject to Title IX because it does not receive direct Federal financial assistance.

Reynolds said that the Department of Education had recommended against an appeal and that the Department of Justice, after its own review of the case, agreed. Reynolds stated that U.S. District Judge D. Dortch Warriner's decision was in line with the U.S. Supreme Court's recent ruling involving the North Haven, Connecticut, Board of Education, and that it was "sound as a matter of law."

In its decision in the North Haven case, the Supreme Court held that Title IX is program specific—it applies only to education programs receiving Federal funding.

However, the Supreme Court did not rule on what constitutes a "program" or "receipt" of federal aid, so its decision did not resolve the question whether an athletic program must receive direct Federal assistance in order to be subject to Title IX.

Last week, the Third U.S. Circuit Court of Appeals ruled that an athletic program need not receive "ear-

## Membership at all-time high

NCAA membership is at an all-time high of 959, and the 5.9 percent gain in overall membership since last year is the highest percentage increase in 25 years.

As of September 1, there were 959 members, compared to 906 last year. The 5.9 percent increase equals the percentage gain from 1956 to 1957. Only three higher percentage increases have been recorded since the NCAA began its present system of maintaining membership records in 1949.

The overall 1982 increase of 53 members, however, is surpassed only by the 70 members that joined the Association between 1949 and 1950. The percentage gain that year was 22.1, an all-time high.

Among the 53 new members are 29 active institutions. The addition of 16 all-women colleges boosted the active membership this year, which is also at an all-time high of 787 institutions. Active membership increased 4.5 percent this year.

### NCAA Membership Growth, 1949-81

Year	Active	Allied	Associate	Affiliated	Total	Pct. of Increase
1949	278	3	28	8	317	
1950	362	11	5	9	387	22.1
1955	449	24	5	11	489	2.5
1960	524	32	10	16	582	2.6
1965	579	41	18	21	659	2.2
1970	645	44	32	26	747	3.6
1975	704	57	24	39	824	2.2
1980	738	73	24	45	880	1.8
1981*	753	82	25	46	906	2.5
1982*	787	95	27	50	959	5.9

\*1981 and 1982 totals are as of September 1; all other totals are as of December 31.

As was the case last year, the allied membership category had the largest percentage increase at 15.9 percent. As of September 1, 95 organizations held allied membership, compared to 82 last year.

Associate membership increased from 25 to 27, and affiliated membership increased from 46 to 50.

NCAA membership has maintained a steady growth since 1958,

with an average annual increase of approximately 2.5 percent. The largest increases in the past 25 years, before this year's 5.9 percent jump, were 3.3 in 1959, 3.5 in 1964, 3.8 in 1967, 3.6 in 1970 and 3.9 in 1974.

A list of new NCAA members will be printed in the September 27 issue of The NCAA News in the NCAA Record section.

## 54 CEOs accept meeting invitations

A total of 54 institutional chief executive officers had accepted invitations as of Friday to attend the third annual NCAA-sponsored CEO meeting September 27-28 at the Hyatt Regency Hotel in Kansas City, Missouri.

That number could increase to approximately 60 if responses are received to outstanding invitations in Divisions II and III.

Included in the list of 54 are 30 from Division I, 11 from Division II and 13 from Division III. In all, 32 invitations were extended in Division I, 18 in Division II and 17 in Division III.

The annual meeting, designed to provide an athletics policy discussion forum for chief executives, will begin at 1 p.m. September 27 with the participants meeting in three separate sessions by division. Those sessions will end by 5:30 that day, with a reception and dinner for all speakers and participants scheduled for that evening.

Sessions by division resume at 8:30 a.m. September 28, with a joint reporting session at 11 a.m. and adjournment at noon.

Agenda items and speakers were reported in the September 13 issue of The NCAA News.

CEOs accepting invitations as of September 17:

### Division I

Thomas G. Carpenter, Memphis State University; Ralph E. Christofferson, Colorado State University; John J. Coffelt, Youngstown State University; John A. DiBiaggio, University of Connecticut; Jack V. Doland, McNeese State University; Glen R. Driscoll, University of Toledo; Jesse C. Fletcher, Hardin-Simmons University; Gail Fullerton, San Jose State University; E. Gordon Gee, West Virginia University; William P. Gerber-

ding, University of Washington.

A. Bartlett Giamatti, Yale University; Very Rev. L. Edward Glynn, St. Peter's College; Norman Hackerman, Rice University; S. Richardson Hill Jr., University of Alabama, Birmingham; Stephen Horn, California State University, Long Beach; Joseph B. Johnson, Grambling State University; John H. Keiser, Boise State University; Richard G. Landini, Indiana State University, Terre Haute; Aubrey K.

### Women's programs

## Enforcement status is topic

Application of the NCAA's full enforcement procedure to women's athletics programs being conducted under NCAA legislation is a key item on the agenda for the NCAA Special Committee on Legislative Review meeting today and tomorrow in Kansas City.

The legislative review committee, chaired by Secretary-Treasurer John L. Toner, was directed by the NCAA Council last month to review the recommendation of the Eligibility Committee that women's programs under NCAA rules be subject to the complete enforcement process. The Division I

Steering Committee and the NCAA Recruiting Committee support that recommendation, while the legislative review committee and the Division II Steering Committee expressed opposition to that proposal in their June meetings.

Current Council policy—reported to the membership when the NCAA governance plan was adopted at the 1981 NCAA Convention—is that the full enforcement program will not be applied to women's programs until August 1, 1985. In the interim, the Eligibility Committee is charged with determining if an institution has vio-

lated the rules governing its women's program, and the only penalty is ineligibility of the involved student-athlete or the team for NCAA-sponsored women's championships.

The committee will report its recommendation to the Council next month, and the Council will decide whether to sponsor legislation that would subject women's programs to the enforcement procedure earlier than 1985.

Another major item on the committee's agenda this week is finalization of a proposal that would limit the num-

See Enforcement, page 12

# Young examines current issues in athletics

The writer is the chancellor of the University of California, Los Angeles. This article is a position paper that he presented recently in Washington at meetings of the American Council on Education and the Association of American Universities.

By Charles E. Young

Special to the Los Angeles Times

Questions about the desirability and viability of intercollegiate athletics tend to surface according to some unpredictable yet cyclical pattern. The spate of headlines, news stories and editorial alarms that have erupted in the past few months may be but one more example of such recurring self-analysis and criticism. According to the pattern, the controversy will pass without bringing significant change. But I seriously doubt that this is the case.

Many universities have been found guilty of serious violations of NCAA rules. Challenges of the NCAA's domination of collegiate athletics have been leveled by member universities from both the rostrum and the witness stand.

The American Council on Education, the Association of American Universities and practically every other higher education association have appointed special committees to deal with the athletic crisis or placed that item on the agenda of their next major meeting. The NCAA itself has appointed a blue-ribbon committee that has been given an independent staff and a mandate to discover, analyze and right any wrongs. Proposals are heard, on the one hand, to drop the pretense of amateurism and go "all-out professional." On the other hand, there are proposals to return to the amateur womb by eliminating grants-in-aid and even coaches' salaries.

Some universities retrench; others seek to expand and upgrade

their programs. Still others abandon sports at which they have excelled and that have contributed substantially to their prestige.

No, this is not a variation on a recurring theme. Intercollegiate athletics and the colleges and universities in which that system operates are in more than normal tension with each other, and a real state of turmoil is the result. What are the causes and character of this malady? More important, what, if any, are its cures?

One's view of the role that athletics has played in American collegiate education is critical in shaping the prescription for the future.

The current state of affairs is such that the danger of these consequences being realized is very great indeed. Is salvage possible?

## Columnary Craft

I think so, but only if there is firm and prompt action by the universities' chief executive officers to correct the basic causes.

Among the most urgent:

- Academic standards have been lowered or lost sight of in order to attract and retain the top student-athletes needed for successful competition while, at the same time, pressures on the athlete in practice and performance make academic achievement difficult, if not impossible.

- Costs have been allowed to escalate in an attempt to compete successfully against other teams and for the public's attention and attendance, requiring an ever-increasing level of income.

- NCAA rules have become too numerous and cumbersome in

an effort to contain unbridled competition, making them generally unenforceable.

- Recruitment of athletes has become too extensive and demanding, placing undue pressure on the prospective student-athletes, their families, coaches and teachers. The process has become demeaning to all those involved, including the universities. Career and financial expectations of student-athletes have been raised to impossible heights as a result of developments in professional sports.

- Athletics have not been kept in perspective by those of us responsible for their administration, because of pressures from all sides, including the attention given to them by the public and the media.

Many of these issues are interrelated and, therefore, so also are the required solutions:

- Several problems could be minimized by increasing academic standards required to establish a student-athlete's eligibility to a level that would predict successful completion of the curriculum and graduation.

- More student-athletes would graduate if: (1) given the fact they are, in reality, part-time students, they were treated like other such students, with recognition of the fact that the schedules associated with athletic activities make it impossible to meet the rigid progress rules designed for full-time students, and (2) freshmen were ineligible to compete and, therefore, able to devote themselves successfully to making the transition from high school to college.

- The system would become simpler and easier to administer if

## Robinson likes football coaching

Eddie Robinson, football coach  
Grambling State University

The 5th Down

"Football coaching is the finest and most rewarding profession in the world. No man is too great to lead the American youth. I can tell you that Eddie Robinson has been blessed.

"I think we should be aware, daily on the practice field and on Saturday in the game, that the young people who play the game for us are the most important things in the whole scheme of football, and that we should treat them like the people we want them to be."

Jim Wacker, football coach  
Southwest Texas State University

College Football Preview

"When you pass an unenforceable rule, all you do is discriminate against the honest coach. I think there is a lot of truth to that. I think that is one reason coaches are reluctant

out and it would help. I think the NCAA would have to go another step farther and say he could not coach again in another NCAA institution for a certain number of years. I will tell you what, that would line up some coaches. I would agree that it has got to be a serious violation."

Donn Bernstein  
ABC Sports

Chicago Sun-Times

"NCAA football is singularly the most complex, intricate, mystifying and puzzling bit of scheduling in all of ABC Sports. Baseball is relatively simple. The NFL is relatively simple. This is Maze City. After all the dust settles, Lady Luck has to be on your shoulders. It's in the hands of the gods."

Frank "Muddy" Waters, football coach  
Michigan State University

The Detroit News

"We don't condone the use of any drugs, and we're doing everything we can to avoid it. If you want to be in educational athletics, you have obligations as a coach and teacher. You can't tolerate things that are counterproductive. I realize this is big-time football, and sometimes I'm referred to as a Pollyanna, but there are ideals and principles I can't compromise.

"And if I have to compromise them, I'll get into another profession. I will not be coerced into going along with things that I know are detrimental to young people. I'm not saying that to make myself a hero. I sincerely believe it."

## Opinions Out Loud

to turn others in or suggest that a situation get investigated. I don't think there is a program in the nation that doesn't worry that they haven't broken this little rule or that little rule.

"There are some small ones that are broken on an every-day basis. It seems like some of those could get ironed

## Questions/Answers

**Q.** What satisfactory progress requirement must be met by a student-athlete who enrolled in an NCAA member institution prior to the effective date of NCAA Bylaw 5-1-(j)-(6) (August 1, 1981)?

**A.** The provisions of NCAA Constitution 3-3-(a)-(3) require that in order for a student to represent an institution in intercollegiate competition, that individual must be maintaining satisfactory progress toward a baccalaureate or equivalent degree as determined by the regulations of that institution. Accordingly, all student-athletes, including those whose eligibility is not subject to the provisions of Bylaw 5-1-(j)-(6), would be required, per Constitution 3-3-(a)-(3), to meet the institution's satisfactory-progress requirement. In addition, conference regulations may impose an additional satisfactory-progress standard for eligibility.

# Dillingham is firm believer in knee brace

By Jim Weeks

Norman (Oklahoma) Transcript

David Dillingham walked away from the play and threw his helmet to the turf.

He knew his left knee was injured. What was more frustrating is that Dillingham knew the injury might have been avoided.

Now he has undergone surgery and will miss the 1982 football season. Dillingham probably would have played regularly. He was Oklahoma's No. 2 center and not considered that far behind starter Chuck Thomas.

But his season was ended in the first scrimmage of the season.

Ironically, Dillingham did not wear a knee brace for the first time since the first practice of spring training in 1981. He said he did not have time to have it put on.

Oklahoma trainer Dan Pickett believes if Dillingham had worn his brace, he would not have been injured, or at least not injured seriously enough to require surgery.

Pickett is a firm believer in the new brace that has been on the market only a couple of years.

In fact, he would like to see it become mandatory for all Oklahoma linemen to wear during contact drills, as it is at the University of Southern California.

"Any time you change something or bring in something new, not only the coaches and the trainers, but also the doctors have to be skeptical," said Pickett. "What do you mean, it works? Why does it work? Prove that it works and then I may go along with it."

"It took me more than a year to convince the orthopedic doctors."

"And I said from day one, 'This is the answer, if we can just make the kids wear it.'"

Some Sooners wear the brace as part of the uniform.

"We're getting some good people in it," Pickett said. "Ricky Bryan will not go out there without it. John Blake. Tommy Flemons."

Pickett's primary duty is preventing injuries. And he believes the new brace will be a great aid in that regard.

The brace is a simple-looking device. It's about a foot long. It

has three aluminum pieces connected by two hinges. Pickett says the hinges are what make it different from previous knee braces. The player has normal mobility. But the brace keeps the knee from being knocked out of place when the athlete is hit on the outside of the leg. Linemen are particularly susceptible to such a blow and often have no warning.

The brace costs \$30. Pickett estimates that it takes about \$3 of tape to secure it to a player's upper calf and lower thigh. It takes about 30 seconds to tape one brace on the outside of the leg.

A knee operation to repair ligament damage costs approximately \$3,500. The player normally is out of action about nine months after such an operation.

Dillingham already has been redshirted, so he also will lose a season of eligibility.

Ironically, Dillingham was the first Sooner to use the brace, and it served him well. He suffered a knee injury while the Soon-

ers were preparing in Miami, Florida, for the 1981 Orange Bowl Classic. He did not have surgery but started wearing the brace the following spring.

"In the first scrimmage, he was driven to the ground, then rolled around a little bit," Pickett said of the spring of 1981. "He jumped up. Didn't go to the huddle. He went straight to me."

"He said, 'Dan, I was just hit harder than I was in Miami. The knee feels great.'"

Dillingham had worn the brace without any problems since then.

"These kids are just now beginning to accept what this brace can do," Pickett said. "Dillingham sold it that spring. It was early in the ballgame, using this type of knee brace."

"David Dillingham is a friend of everyone on this team. It's sad to say, but what happened to David Dillingham is what gets their attention."

## Lykins thinks Americans should take pride in international basketball

Kentucky State University basketball coach John Lykins says that Americans should pay more attention to international basketball tournaments such as the Pan American Games and the World University Games.

America's top athletes must continue to compete in international events to stop the country's recent slide in worldwide play, he told the Associated Press.

Lykins was an assistant for an American all-star team that recently finished second in Colombia.

"We only send our best team to the Olympics," Lykins said. "We should do that every year. Other countries emphasize international play."

"And what does the world know about international competition? To them, the Soviet Union is the champion. The world is used to the Soviet Union winning year after year. Other countries recognize them as being better when that's not true at all."

Lykins noted that while the United States has more good players than most countries, many of the players do not represent their country in international competition.

"Patriotism doesn't play a big part in their decision on whether or not to play," Lykins said.

## Football in Europe

By the Roanoke Times & World-News Staff

Football is beginning to take Europe by storm, and four Virginia Military Institute coaches rode the crest of enthusiasm on a working visit there earlier this year.

Coaches Joe Bush, Karl Lembel, Tom Throckmorton and Dick Harmison conducted clinics, seminars and practice sessions in Germany and Italy.

They traveled from city to city offering instruction in the sport that is still very new to most Europeans.

The traveling clinic was arranged by Ward Carr, who played football at Virginia Military and graduated in 1969. Carr, whose wife is German, works for an American company in Frankfurt. He has been instrumental in getting a football league going in Germany and does public relations and promotional work for the league.

The Virginia Military coaches are probably the first to conduct football clinics in Germany. They found that while there are no athletics in the schools, the cities have clubs sponsoring football.

Organized football has been played in Germany for only two or three years, said Bush, who coordinated plans for the coaches' trip.

In Germany, and in other European countries, football is just beginning to challenge soccer in the public eye, whereas in the United States, soccer is beginning to challenge football.

The Virginia Military coaches found that the European football players were "hungry for anything" in the way of instructional material. Whenever the instructors would pull out a written sheet, the players would want 50 copies.

The club teams in Germany, which Bush described as a little below the level of semipro teams in this country, have players ranging in age from 17 to 42. The current practice is to allow up to four Americans to play on a team at a time. Bush shook his head at the training practices of the European football players. They will eat a big meal, complete with beer or wine, before a practice session. Cigarette smoking is usual.

The Virginia Military group flew to Munich, Germany, and then went to Nuremberg and Mannheim. There they split, with Bush and Harmison going to Milan, Italy, and Lembel and Throckmorton to Paris. The group reassembled in Frankfurt. The coaches were accompanied by their wives, whose expenses were not paid by the trip sponsors.

Since most of the players work, and only a few of them are paid to play football, the seminars or practice sessions would start usually at 6 p.m. This left the Virginia Military group free during the day, and their hosts extended them great hospitality and took them to see sites that the typical American tourist misses.

Typically, the coaches would conduct a clinic one day and a practice session the next day in each city. The European football season is in full swing in the summer.

The language barrier presented no serious problems. Though both Lembel and Bush can speak German, they found this hardly necessary as 80 to 90 percent of the players could understand English. All football terms are in English, and all the coaches are Americans.

In Italy, they found football more advanced in organization and finance. Some teams are sponsored by such big companies as Fiat. The language problem in Milan was solved by the use of a translator.

"We took Lexington brochures with us, and the European players want to come over here and see Lexington," Bush said.

The pioneer venture of the Virginia Military coaches proved a success on all counts. "We hope we started something we can follow up on," Bush concluded.

## Standards determined for swimming

The NCAA Men's and Women's Swimming Committees have established the qualifying standards for participation in the 1983 division championships in swimming and diving.

In addition to the usual qualifying standards, there will be "consideration times" used for the NCAA Division II Women's Swimming and Diving Championships, primarily because of uncertain participation levels.

If a swimmer in that championship achieves the qualifying standard in any individual event, she also may compete in any other event in which she achieves the consideration time.

Complete qualifying standards and consideration times are:

1983 MEN'S QUALIFYING STANDARDS

## Athletic reforms

Continued from page 2

there were a requirement that no special rules could be applied to student-athletes unless an ironclad case could be made for treating them differently from other students.

• Costs would be reduced and recruitment pressures eased if fewer grants-in-aid were allowed in football, maximum number of coaches reduced and allowable number of recruitment contacts lowered.

• The amount of cheating by alumni and others who have been encouraged to give extra aid to athletes would be reduced if: (1) the rules limiting the allowable grant-in-aid and work income were made more reasonable, and (2) the practice of giving tickets to athletes was discontinued.

If these changes were made, I believe that it would be possible to enforce the rules strictly rather than continue the practice of closing an eye to minor transgressions, thereby encouraging further violations.

There are other problems with the current system and other reforms that would be helpful in improving it. Those that I have proposed here, however, if adopted now, would reverse the downward slide of recent years and begin to restore collegiate athletics to its proper perspective.

Equally important, such action would demonstrate that those of us responsible understand the proper relationship between athletics and academics and are willing to act to preserve it. This action also should contribute substantially to restoring credibility in the leadership of America's universities and colleges—the credibility that has been diminished by the inability to control more effectively the athletic enterprise.

## Football Notes

## Cal's Kapp off to 2-0 start in rookie season

## First-Year Fortune

"My life flashed in front of me in the fourth quarter," related Joe Kapp, California's first-year head coach, after his team nearly lost a 21-0 lead before beating Colorado, 31-17, in his first game. "Some of my decisions were awful. They were rookie coaching decisions. Thank God for the players overcoming coaching mistakes." (Jim Muldoon, Pacific-10 SID)

Kapp and California are now 2-0 after that 28-0 victory over San Diego State last Saturday. He isn't the only first-year coach off to a good start. (By first-year, we mean no previous head-coaching experience at a four-year college. Kapp, however, is a rare case—he had no coaching experience of any kind at any level. More about that later.) Pittsburgh's Serafino "Fog" Fazio, a rare case himself with his team ranked No. 1 in the preseason polls, is another first-year coach off to a 2-0 start.

Toledo's Dan Simrell is 3-0, and his team owns the longest current winning streak in Division I-A with a modest eight in a row. Colorado's Bill McCartney is 1-1 after his team upset Washington State, 12-0. In all, six first-year coaches won their opening games, and two won their second games. The 10 first-year coaches in Division I-A have combined for a 13-11 record, while the seven in Division I-AA stand 5-13.

Kapp, 44, and a 1959 California graduate, had no previous coaching experience, but as a player he was known as a coach on the field. In fact, he is the only player in football history to lead teams to the Rose Bowl (California's last appearance), the Grey Cup (Canadian title game) and the Super Bowl. Kapp is known as a fighter, but when sophomore quarterback Gale Gilbert went home early in July and said he was never coming back, he discovered a side of Kapp he never knew existed.

Kapp gave Gilbert time to cool off, then drove to his home with two assistant coaches. "He went back over everything, step by step," Gilbert told Dave Newhouse of the Oakland Tribune. "He talked about coaching and teaching. But we really talked about everything. He hit on the right things. I found out they believed in me more than I believed in them."

Fazio, 43, moved up from defensive coordinator at Pittsburgh almost by acclamation. "The way I look at it," he told Bob Oates of the Los Angeles Times, "They hired the best man they could find—and he happened to be right here." How about the pressure of a new coach being voted No. 1 in the preseason polls? "This isn't the first time, you know," said Fazio. "They tell me his name is Bennie Oosterbaan. The year he succeeded Fritz Crisler, Michigan started and finished No. 1, winning the national championship."

Fog Fazio may be the first head coach named for a candy bar. At the age of four, he toted a fudge bar across the street one day from his daddy's grocery store to a new customer and said, "This here's your fog." He's been Fog ever since.

His name, by the way, is pronounced fay-zee-o. "The Ohio Fazioes call it fah-zio, but we don't have anything to do with them," he said, smiling. Nor does he have much time for his baptismal name, Serafino Dante Fazio. "My mother named me Serafino, which means Little Angel," he said. "And my father named me Dante. He must have known I'd be in this inferno some day."

Toledo's Simrell, one of three first-year I-A coaches now at his alma mater (Kapp and Fazio are the others), doesn't want to hear about the winning streak, reports SID Max Gerber. "Big deal," he snorted. "I told the team: 'I'm not supposed to talk about something like that and you're not supposed to know it. So quit reading the papers,

George Welsh

and I didn't tell you."

By the way, in case you're wondering, NCAA files show no record in modern I-A history of a case parallel to Kapp's—that is, no previous coaching experience at any level. Does anyone remember anything similar? Some old-timers remember Frank Carideo, an all-America back at Notre Dame in 1929 and 1930, taking over as head coach in 1932 at Missouri. But Carideo, now living in Ocean Springs, Mississippi, reports he was an assistant at Purdue in 1931. Before that, Harry Stuhldreher, one of Notre Dame's famed Four Horsemen, took over at Villanova as head coach after his graduation in 1925.

Here's how the 17 first-year coaches in I-A and I-AA have started the season:

Division I-A	W-L
Joe Kapp, California	2-0
Bill McCartney, Colorado	1-1
Leon Fuller, Colorado State	1-2
Gary Tranquill, Navy	1-1
Harvey Hyde, Nevada-Las Vegas	0-2
Serafino Fazio, Pittsburgh	2-0
Leon Burnett, Purdue	0-2
Richard Bell, South Carolina	2-1
Jim Carmody, Southern Mississippi	1-2
Dan Simrell, Toledo	3-0

Stanford's John Elway, the Division I-A leader in passing efficiency and total offense.

Division I-AA	W-L
Dennis Erickson, Idaho	1-1
Hubert Boales, McNeese State	1-2
Doug Graber, Montana State	1-2
Maurice Forte, N.C. A&T	0-2
Corky Nelson, North Texas State	0-3
Don Davis, West Texas State	0-3
Jack Harbaugh, Western Michigan	2-0

Except for Kapp and Hyde—a head coach at the junior college level (Pasadena City College) in 1981—all of the first-year coaches were assistants at the I-A level in 1981—seven of them at the same college where they took over as head coach in 1982.

## New-Job Coaches

Ten more head-coaching changes—seven of them in I-A—brought in men with previous head-coaching experience at the four-year level. This group includes some big winners like Jerry Claiborne (138-76-5), who moved from Maryland to his alma mater (1950), Kentucky; Jackie Sherrill (53-

Jackie Sherrill

17-1), from Pittsburgh to Texas A&M; George Welsh (55-46-1), Navy to Virginia; Bobby Collins (48-30-2), Southern Mississippi to Southern Methodist; and Joe Harper (96-43-3), Cal Poly-San Luis Obispo to Northern Arizona. So far, the seven new-job coaches in I-A stand 5-11, the three in I-AA are 3-5. The list:

Division I-A	W-L
Jerry Claiborne, Kentucky	0-2
Bobby Ross, Maryland	0-2
Bobby Collins, SMU	2-0
Jackie Sherrill, Texas A&M	1-1
Bill Yung, Texas-El Paso	1-2
Chuck Stobart, Utah	1-2
George Welsh, Virginia	0-2
Division I-AA	W-L
Ken Stephens, Lamar	2-1
Joe Harper, Northern Arizona	1-1
Jim McKinley, Prairie View	0-3

## No. 300 Saturday Night?

Eddie Robinson, the resident legend at Grambling, can become the fourth coach in college football history to win 300 games with a victory Saturday night at Florida A&M (2-0). Unless you've been living in a cave, you know Alabama's Paul "Bear" Bryant leads the all-time list at 317. Next are Amos Alonzo Stagg at 314 and Glenn "Pop" Warner at 313, followed by the

Penn State's Todd Bluckledge, No. 6 in passing efficiency in Division I-A.

63-year-old Robinson at 299 after that 31-14 victory over Alcorn State. Robinson has spent his entire head-coaching career at Grambling—this is his 40th season—and is the only coach to win more than 250 at the same college. Among the big four, his winning percentage of .745 is second to Bryant's .784.

Robinson has coached thousands of players at Grambling. More than 200 have played pro football, and hundreds of others have enjoyed successful careers in all walks of life. Grambling teams have traveled thousands of miles on their annual coast-to-coast schedule to perform in more major stadiums than any other college team. His teams played the first college game in the Louisiana Superdome and the first regular-season NCAA game in Tokyo. (Collie Nicholson, Southwestern Athletic Conference SID)

## Quickie Quips

Texas-El Paso coach Bill Yung on playing Washington, SMU, Hawaii and Brigham Young consecutively, then Arizona State two weeks later: "We want to go against the best kind of competition. This world is full of competition. If you don't believe it, ask Braniff International."

Wyoming coach Al Kincaid, asked if there was a bright spot in his team's loss to New Mexico, replied: "Yes, when the sun came out in the first quarter." (Dee Menzies, Western Athletic Conference assistant SID)

To say that Wichita State fans and alumni were happy about their team's 13-10 victory at Kansas (first meeting of the two in 36 years) would be an understatement. Said coach Willie Jeffries: "Judging from all the attention I've been getting, it might be time to get out of coaching. Maybe I should run for mayor." (Kevin Weiberg, Wichita State SID)

After Guilford had four interceptions and four fumbles in the first half alone against Randolph-Macon, Tom

mann, Illinois assistant SID)

Radio and public address announcers shudder when they think of it. You see, Davidson already had a sophomore defensive end named Dwayne E. Wright and a sophomore cornerback named Dwayne D. Wright, both from Georgia (D. E. from Savannah and D. D. from Columbus). This fall, Davidson added a third Wright—Steve Wright, an offensive lineman from Danville, Virginia. You guessed it. His middle name is Dwayne.

Davidson professor Thomas Rogerson has all three Wrights in one of his Spanish classes. "It's kind of confusing at times," says Steve Wright. "Professor Rogerson likes to address people in class by 'Senor' and their last name. 'Senor Wright' brings a chuckle or two. He has to use all three initials with us."

There is yet another Wright in the Davidson football picture. The color man on the Wildcats' radio network is David Wright of WBBB in Burlington, North Carolina. Says

## I-A Attendance Up

Per-game attendance reached 43,811 in Division I-A through last Saturday, an increase of 3.77 percent over the same stage last season for the same 97 teams. Percent of capacity reached 80.1 percent, compared to 79.8 percent for the same teams at this stage a year ago. The top 10 attendance games in Division I-A totaled 803,351 for the weekend of September 11—second in history to the 809,302 for the weekend of September 22, 1979.

In Division I-AA, the per-game average for the season to date is 11,991, down slightly compared to the same 92 teams at this point of 1981. However, percent of capacity is 60.1 percent in I-AA, compared to 57.1 percent at this stage a year ago, indicating the decrease may simply be a matter of scheduling differences. Here is the attendance chart:

	Games	Attendance	Per-Game	Percent Capacity
Division I-A season figures to date	121	5,301,107	43,811	80.1
Same 97 teams at this stage in 1981	128	5,404,140	42,220	79.8
Division I-AA season figures to date	99	1,187,108	11,991	60.1
Same 92 teams at this stage in 1981	102	1,240,695	12,164	57.1

Haudricourt, Richmond Times-Dispatch, wrote: "Guilford used its Betty Crocker offense—one turnover after another." (Phil Stanton, Randolph-Macon SID)

After his team's opening 14-6 victory over Fort Valley State, first-year head coach Fred Pickard of Tennessee-Martin quipped: "The only thing this tells us is we can't finish 0-11." (Tucker Davis, Tennessee-Martin SID)

After Arkansas' little Derek Holloway caught five passes for 169 yards against Tulsa, coach Lou Holtz said: "He's made a lot of progress. Two years ago he couldn't have caught a cold if he was naked in the Arctic Ocean." Holtz on game balls: "We gave one of our game balls to the people at our dining hall because they do such a great job. Of course, they may serve it to us on Monday." Holtz on Navy: "About the only thing I know about them is they're on our side." (Rick Schaeffer, Arkansas SID)

## Southwest Parity in the 1980s

The four private schools in the Southwest Conference have enjoyed a dramatic resurgence in the 1980s against the state schools. The private schools have done a better job of recruiting and coaching, and certainly the 30-95 scholarship rule is a factor. In the 1970s, the state schools won 142 games, lost 30 and tied 4 (.818) against the private schools, which had only seven individual winning seasons against 33 losing seasons. But in the 1980s, the private schools are 20-19-1 (.513) versus the state institutions and 4-4 in winning versus losing seasons. Two private schools and two state schools have winning records over their opposite numbers in the 1980s—Texas is 6-2, SMU 7-3, Baylor 7-3 and Houston 5-3. Other records: Rice 4-6, Arkansas 3-5, Texas A&M 3-5, Texas Tech 2-5-1 and TCU 2-7-1. (Bill Morgan, Southwest Conference SID)

## The Name Game

Can any team in the nation come up with a more extreme combination of teammates than Illinois' Mike Heaven (sophomore cornerback) and Mark Helle (senior guard)? (Dale Rater-

David: "Five will get you 10 that I'll be the next to 'misidentify' one of them." (Emil Parker, Davidson SID)

## First Kick, 61 Yards

Michigan State's Ralf Mojsiejenko established a Division I-A record by booming a 61-yard field goal on the very first attempt of his collegiate career against Illinois. Oklahoma's Tony Di Rienzo kicked a 60-yarder on the second attempt of his collegiate career against Kansas in 1973. Mojsiejenko, a sophomore from Bridgman, Michigan, who was born in Germany, also is an excellent punter. (Nick Vista, Michigan State SID)

## A Record FG Saturday

If it seemed like there were an awful lot of field goals kicked last Saturday in I-A football, you are absolutely correct. The average of 2.18 per game broke the record 2.09 per game set October 17, 1981, and the national-accuracy figure of 68.9 percent broke the record of 67.6 percent set the same day. Field goals provided the winning margin in seven of the 51 I-A games and helped the national-scoring average reach 44.0 points per game (both teams combined)—highest since November 4, 1978.

In Division I-AA, there were 1.61 field goals per game, and accuracy reached 64.6 percent last Saturday. Scoring reached 40.4, topped by that Rhode Island 58, Maine 55 spree in a record six overtimes. Maine's 55 tied the record for a losing team (Furman 63, Davidson 55 in 1979) in I-AA.

## Stop Sign Quarterbacks

David McDaniel, equipment supervisor at Arkansas State, has a new solution to the old problem of how to protect quarterbacks in practice. "We used to use a different colored jersey, but now we have six jersey colors for various teams," he said. "Some teams use an 'X', but that looks like a target." His answer—a bright red stop sign on the fronts and backs of QB jerseys. Nose guard Elroy Brown said to QB Tim Langford with a sneer: "You know some people run stop signs, don't you?" Langford wondered out loud: "Will they let us wear these against Alabama?" (Jerry Schaeffer, Arkansas State SID)

# 10 championships to be conducted at common sites

Common sites for NCAA men's and women's championships will continue to be a popular policy during the 1982-83 academic year.

Ten national championships will be conducted at common sites, among them the 1983 National Collegiate Men's and Women's Indoor Track Championships March 11 and 12 at the Silverdome in Pontiac, Michigan. That event combines one of the Association's most popular events, the men's indoor championships, with the first women's indoor meet.

The 10 common-site events represent an increase of nearly 50 percent from the seven championships conducted on that basis in 1981-82. All indications are that the concept has been successful. In addition, most regional competition in cross country and in diving will be conducted at common sites.

All three division cross country championships will be conducted at common sites this fall: Division I, November 22 at Indiana University in Bloomington; Division II, November 13 at St. Cloud State University in St. Cloud, Minnesota, and Division III, November 20 at Fredonia State University College in Fredonia, New York. This will be the first time that the Division II championships will be held at a common site.

Three events, in addition to the indoor track championships, are scheduled for common sites during the 1982-83 winter season. The winter

events are: Division II basketball, March 24 to 26 at Springfield College in Springfield, Massachusetts; Division II swimming and diving, March 16 to 19 at the Belmont Plaza Pool in Long Beach, California (California State University, Chico, will serve as host institution), and Division II gymnastics, March 24 to 26 at the University of California, Davis. This will be the first year for common-site competition in the swimming and diving championships.

Common-site competition in the spring consists of the three division outdoor track championships. Division I will be held at the University of Houston, May 30 to June 4; Division II is scheduled for May 23 to 28 at Southeast Missouri State University in Cape Girardeau, and Division III also will be held May 23 to 28 at North Central College in Naperville, Illinois.

Dates and sites of other 1982-83 championships:

**National Collegiate—Men's**  
Fencing: George Mason University, Fairfax, Virginia, March 13-15, 1983.

Skiing: Bridger Bowl, Bozeman, Montana (Montana State University host), March 9-12, 1983.

Volleyball: Ohio State University, Columbus, Ohio, May 6-7, 1983.

Water Polo: California State University, Long Beach, California, November 27-28, 1982.

**Nat'l Collegiate—Men's and Women's**  
Rifle: Xavier University, Cincinnati, Ohio, March 18-19, 1983.

**Division I—Men's**  
Baseball: Rosenblatt Memorial Stadium, Omaha, Nebraska (Creighton University host), June 4-13, 1983.

**Basketball:** First and Second Rounds—East at Greensboro Coliseum, Greensboro, North Carolina (Atlantic Coast Conference host), March 17 and 19, 1983, and Hartford Coliseum, Hartford, Connecticut (University of Connecticut host), March 18 and 20, 1983; Midwest at University of South Florida, Tampa, Florida, March 17 and 19, 1983, and Roberts Stadium, Evansville, Indiana (University of Evansville host), March 18 and 20, 1983; Midwest at The Summit, Houston, Texas (University of Houston host), March 17 and 19, 1983, and Freedom Hall, Louisville, Kentucky (University of Louisville host), March 18 and 20, 1983; West at Boise State University, Boise, Idaho, March 17 and 19, 1983, and Oregon State University, Corvallis, Oregon, March 18 and 20, 1983; Regionals—East at Carrier Dome, Syracuse, New York (Syracuse University host), March 25 and 27, 1983; Midwest at University of Tennessee, Knoxville, Tennessee, March 24 and 26, 1983; Midwest at Kemper Arena, Kansas City, Missouri (Big Eight Conference host), March 25 and 27, 1983; West at Weber State University, Ogden, Utah, March 24 and 26, 1983; Finals—University of New Mexico, Albuquerque, New Mexico, April 2 and 4, 1983.

**Cross country:** Regionals—Districts 1 and 2 at Lehigh University, Bethlehem, Pennsylvania, November 13, 1982; District 3 at Furman University, Greenville, South Carolina, November 13, 1982; District 4 at Purdue University, West Lafayette, Indiana, November 13, 1982; District 5 at University of Missouri, Columbia, Missouri, November 13, 1982; District 6 at University of Texas, Austin, Texas, November 13, 1982; District 7 at University of Utah, Salt Lake City, Utah, November 13, 1982; District 8 at California State University, Fresno, California, November 13, 1982.

**Football (I-AA):** First and Second Rounds—sites to be determined, November 27 and December 4, 1982; Semifinals—sites to be determined, December 11, 1982; Finals—Pioneer Bowl, Wichita Falls, Texas, December 18, 1982.

**Golf:** San Joaquin Country Club, Fresno, California (California State University, Fresno, host), June 8-11, 1983.

**Gymnastics:** Pennsylvania State University, University Park, Pennsylvania, April 7-9, 1983.

**Ice hockey:** First Rounds—sites to be determined, March 18-20, 1983; Finals—University of North Dakota, Grand Forks, North Dakota, March 24-26, 1983.

**Lacrosse:** First Rounds—sites to be determined, May 18, 1983; Semifinals—sites to be determined, May 21, 1983; Finals—Rutgers University, New Brunswick, New Jersey, May 28, 1983.

**Soccer:** First Rounds—sites to be determined, November 17, 1982; Second Rounds—sites to be determined, November 21, 1982; Third Rounds—sites to be determined, November 28, 1982; Semifinals—sites to be determined, December 5, 1982; Finals—Lockhart Stadium, Fort Lauderdale, Florida, (Jacksonville University host), December 11, 1982.

**Swimming and diving:** Regionals—Districts 1 and 2 at Harvard University, Boston, Massachusetts, March 11-12, 1983; District 3 at University of South Carolina, Columbia, South Carolina, March 11-12, 1983; District 4 at IU Natatorium, Indianapolis, Indiana (Indiana University-Purdue University host), March 11-12, 1983; Districts 5 and 6 at University of Arkansas, Fayetteville, Arkansas, March 11-12, 1983; Districts 7 and 8 at University of Nevada, Las Vegas, Nevada, March 11-12, 1983; Finals—IU Natatorium, Indianapolis, Indiana (Indiana University-Purdue University host), March 24-26, 1983.

**Tennis:** University of Georgia, Athens, Georgia, May 14-22, 1983.

**Wrestling:** Regionals—East at James Madison University, Harrisonburg, Virginia, February 25-26, 1983; West at Eastern Illinois University, Charleston, Illinois, February 25-26, 1983; Finals—The Myriad, Oklahoma City, Oklahoma (Oklahoma State University and University of Oklahoma hosts), March 10-12, 1983.

**Division II—Men's**  
Baseball: University of California, Riverside, California, May 21-25, 1983.

**Basketball:** Regionals—sites to be determined, March 10-12, 1983; Quarterfinals—sites to be determined, March 18 or 19, 1983.

**Cross Country:** Regionals—Northeast at East Stroudsburg State College, East Stroudsburg, Pennsylvania, October 30, 1982; Southeast at West Georgia College, Carrollton, Georgia,

October 30, 1982; North Central at St. Cloud State College, St. Cloud, Minnesota, October 30, 1982; South Central at Central Missouri State University, Warrensburg, Missouri, October 30, 1982; Great Lakes at University of Wisconsin, Parkside, Kenosha, Wisconsin, October 30, 1982; West at University of California, Riverside, California, October 30, 1982.

**Football:** First Rounds—sites to be determined, November 27, 1982; Semifinals—sites to be determined, December 4, 1982; Finals—Palm Bowl, McAllen, Texas, December 11, 1982.

**Golf:** Spidel Golf Course, California, Pennsylvania (California State College host), May 17-20, 1983.

**Ice hockey:** First Rounds—sites to be determined, March 11-13, 1983; Finals—site to be determined, March 17-19, 1983.

**Soccer:** First Rounds—sites to be determined, November 14, 1982; Second Rounds—sites to be determined, November 21, 1982; Semifinals—sites to be determined, November 28, 1982; Finals—site to be determined, December 4, 1982.

**Tennis:** Southwest Texas State University, San Marcos, Texas, May 12-15, 1983.

**Wrestling:** Regionals—East to be determined, February 11-12, 1983; Midwest at Ferris State University, Big Rapids, Michigan, February 11-12, 1983; South at Pembroke State University, Pembroke, North Carolina, February 11-12, 1983; Midwest at University of Wisconsin, Parkside, Kenosha, Wisconsin, February 11-12, 1983; West to be determined, February 11-12, 1983; Finals—North Dakota State University, Fargo, North Dakota, February 27-28, 1983.

**Division III—Men's**  
Baseball: Marietta College, Marietta, Ohio, June 2-5, 1983.

**Basketball:** Regionals—sites to be determined, March 3-5, 1983; Quarterfinals—sites to be determined, March 12, 1983; Finals—Calvin College, Grand Rapids, Michigan, March 18-19, 1983.

**Cross country:** Regionals—New England at Franklin Park, Boston, Massachusetts (Brandeis University and Southeastern Massachusetts University hosts), November 13, 1982; New York at

## Championship Corner

1. In Division III women's volleyball, beginning with the 1983-84 season, only the best two-of-three or three-of-five matches played to 15 points will be considered in a team's win-loss record.

The following were granted automatic qualification for the 1982 Division III Women's Volleyball Championship: Mid-Atlantic States Collegiate Athletic Conference, Chicago Metro Conference and Southern California Intercollegiate Athletic Conference.

Beginning with the 1983-84 season, in order to be considered for automatic qualification, a conference must conduct either double round-robin or single round-robin competition and a postseason tournament designated to determine the conference representative to the championship.

2. In Division II women's basketball, beginning in 1983-84, to be considered for automatic qualification, a conference shall be composed of at least six Division II member institutions whose basketball teams play schedules with at least 10 regular-season conference games. A conference must conduct either double round-robin in-season competition or single round-robin in-season competition and a postseason tournament to determine the conference representative to the NCAA championship. A conference of more than 12 institutions must establish subdivisions of six or more institutions to conduct division competition. In such cases, each institution must conduct double round-robin in-season competition in its own subdivision.

3. Women's Soccer Rules. The following substitution rule will be followed for the 1982 National Collegiate Women's Soccer Championship: Either team may substitute freely under the following conditions: (a) on a goal kick, (b) on a corner kick, (c) after a goal has been scored, (d) between periods and (e) in the event of an injury. In the event of an injury, only the injured player(s) may be replaced. A substitute may not enter the field of play until the person being replaced has exited the field. The player shall enter and exit at the halfway line only after having received a signal from the referee.

4. Women's Gymnastics—Counting Meets. For the 1982-83 season, dual meets against club or junior college teams will not be counted for qualification purposes. However, a quadrangular, triangular or other invitational meet in which at least half of the competition is four-year, degree-granting institutions will be counted.

5. Softball. The following were granted automatic qualification for the 1983 Division I championship: Big Eight Conference, Big Ten Conference, Gateway Collegiate Athletic Conference, High Country Athletic Conference, Northern Pacific Athletic Conference and Western Collegiate Athletic Association.

The following were granted automatic qualification for the 1983 Division II Softball Championship: Missouri Intercollegiate Athletic Association, North Central Intercollegiate Conference and Northeast-Eight Conference.

The following were granted automatic qualification for the 1983 Division III Softball Championship: Iowa Intercollegiate Athletic Conference, Massachusetts State College Athletic Conference and New Jersey State College Athletic Conference.

The Diamond D-100 softball will be used in all three championships.

Beginning with the 1983-84 season, conferences that wish to be considered for automatic qualification for the Division I, Division II or Division III championship must conduct either single or double round-robin in-season competition with a minimum of three terms in each division. In addition to the round-robin play, a season-ending tournament could be conducted by the conference to determine the representative to the championship.

## 10 championships

Continued from page 7

Fredonia State University College, Fredonia, New York, November 13, 1982; Midwest at Lebanon Valley College, Annville, Pennsylvania, November 13, 1982; Great Lakes at Case Western Reserve University, Cleveland, Ohio, November 13, 1982; Central at Central College, Pella, Iowa, November 13, 1982; Midwest at Augustana College, Rock Island, Illinois, November 13, 1982; Southeast at Lynchburg College, Lynchburg, Virginia, November 13, 1982; West at Occidental College, Los Angeles, California, November 6, 1982.

Football: First Rounds—sites to be determined, November 20, 1982; Semifinals—sites to be determined, November 27, 1982; Finals—Amos Alonzo Stagg Bowl, Phenix City, Alabama, December 4, 1982.

Golf: College of Wooster, Wooster, Ohio, May 17-20, 1983.

Lacrosse: First Rounds—sites to be determined, May 11, 1983; Semifinals—sites to be determined, May 14, 1983; Finals—site to be determined, May 22, 1983.

Soccer: First and Second Rounds—sites to be determined, November 5 and 6, 1982; Third Rounds—sites to be determined, November 14, 1982; Semifinals—sites to be determined, November 21, 1982; Finals—site to be determined, November 27, 1982.

Swimming and diving: C. T. Branin Natatorium, Canton, Ohio (Case Western Reserve University, Denison University, Kenyon College hosts), March 17-19, 1983.

Tennis: State University of New York, Albany, New York, May 11-14, 1983.

Wrestling: Regionals—Northeast at U.S. Coast Guard Academy, New London, Connecticut, February 11-12, 1983; East to be determined, February 11-12, 1983; Midwest at DePauw University, Greencastle, Indiana, February 18-19, 1983; Midwest at University of Wisconsin, Whitewater, Wisconsin, February 17-18, 1983; West at Whittier College, Whittier, California, February 12, 1983; Finals—Wheaton College, Wheaton, Illinois, February 25-26, 1983.

### National Collegiate—Women's

Fencing: Pennsylvania State University, University Park, Pennsylvania, March 17-19, 1983.

Golf: Site to be determined, May 25-28, 1983.

Lacrosse: First Rounds—sites to be determined, May 11, 1983; Second Rounds—sites to be determined, May 14, 1983; Finals—University of Pennsylvania, Philadelphia, Pennsylvania, May 21-22, 1983.

Soccer: First Rounds—sites to be determined, November 7, 1982; Second Rounds—sites to be determined, November 14, 1982; Finals—Uni-

versity of Central Florida, Orlando, Florida, November 20-21, 1982.

### Division I—Women's

Basketball: First Rounds—sites to be determined, March 17-20, 1983; Regionals—East at Pennsylvania State University, University Park, Pennsylvania, March 24-26, 1983; Midwest at University of Notre Dame, Notre Dame, Indiana, March 25-27, 1983; Midwest at Louisiana Tech University, Ruston, Louisiana, March 25-27, 1983; West at University of California, Los Angeles, California, March 24-26, 1983; Finals—The Scope, Norfolk, Virginia (Old Dominion University host), April 1 and 3, 1983.

Cross country: Regionals—District 1 at University of Vermont, Burlington, Vermont, November 13, 1982; District 2 at Lehigh University, Bethlehem, Pennsylvania, November 13, 1982; District 3 at Furman University, Greenville, South Carolina, November 13, 1982; District 4 at Purdue University, West Lafayette, Indiana, November 13, 1982; District 5 at University of Missouri, Columbia, Missouri, November 13, 1982; District 6 at University of Texas, Austin, Texas, November 13, 1982; District 7 at University of Utah, Salt Lake City, Utah, November 13, 1982; District 8 at California State University, Fresno, California, November 13, 1982.

Field hockey: First Rounds—sites to be determined, November 13 and 14, 1982; Finals—Temple University, Philadelphia, Pennsylvania, November 20-21, 1982.

Gymnastics: Regionals—East at West Virginia University, Morgantown, West Virginia, March 25, 1983; South at University of Florida, Gainesville, Florida, March 26, 1983; Central at Southern Illinois University, Carbondale, Illinois, March 26, 1983; Mountain at Utah State University, Logan, Utah, March 26, 1983; West at California State University, Fullerton, California, March 26, 1983; Finals—University of Utah, Salt Lake City, Utah, April 8-9, 1983.

Softball: First Rounds—sites to be determined, May 13-14, 1983; Finals—Creighton University, Omaha, Nebraska, May 25-29, 1983.

Swimming and diving: Regionals—Districts 1 and 2 at Harvard University, Boston, Massachusetts, March 11-12, 1983; District 3 at University of South Carolina, Columbia, South Carolina, March 11-12, 1983; District 4 at IU Natatorium, Indianapolis, Indiana (Indiana University-Purdue University host); Districts 5 and 6 at University of Arkansas, Fayetteville, Arkansas, March 11-12, 1983; Districts 7 and 8 at University of Nevada, Las Vegas, Nevada, March 11-12, 1983; Finals—University of Nebraska, Lincoln, Nebraska, March 17-19, 1983.

Tennis: University of New Mexico, Albuquerque,

que, New Mexico, May 14-22, 1983.

Volleyball: First Rounds—sites to be determined, December 2-5, 1982; Regionals—Midwest at Purdue University, West Lafayette, Indiana, December 11-12, 1982; South at University of Houston, Houston, Texas, December 10-12, 1982; West at University of California, Los Angeles, California, December 9-10, 1982; Northwest to be determined, December 11-12, 1983; Finals—University of the Pacific, Stockton, California, December 17-19, 1983.

### Division II—Women's

Basketball: Regionals—sites to be determined, March 10-12, 1983; Quarterfinals—sites to be determined, March 18 or 19, 1983.

Cross country: Regionals—Northeast at East Stroudsburg State College, East Stroudsburg, Pennsylvania, October 30, 1982; Southeast at West Georgia College, Carrollton, Georgia, October 30, 1982; North Central at St. Cloud State College, St. Cloud, Minnesota, October 30, 1982; South Central at Central Missouri State University, Warrensburg, Missouri, October 30, 1982; Great Lakes at University of Wisconsin, Parkside, Kenosha, Wisconsin, October 30, 1982; West at University of California, Riverside, California, October 30, 1982.

Field hockey: First Rounds—sites to be determined, November 12-13, 1982; Finals—site to be determined, November 20, 1982.

Gymnastics: Regionals—Northeast at Cortland State University College, Cortland, New York, March 12, 1983; Southeast at Radford University, Radford, Virginia, March 12, 1983; Midwest at Southeast Missouri State University, Cape Girardeau, Missouri, March 12, 1983; Central to be determined, March 12, 1983; West at California State University, Chico, California, March 12, 1983.

Softball: First Rounds—sites to be determined, May 13-14, 1983; Finals—sites to be determined, May 20-22, 1983.

Tennis: California State Polytechnic University, Pomona, California, May 11-14, 1983.

Volleyball: Regionals—sites to be determined, December 3-4, 1982; Finals—California State University, Northridge, California, December 10-11, 1982.

### Division III—Women's

Basketball: Regionals—sites to be determined, March 3-5, 1983; Quarterfinals—sites to be determined, March 11 or 12, 1983; Finals—Clark University, Worcester, Massachusetts, March 18-19, 1983.

Cross country: Regionals—New England at Franklin Park, Boston University (Brandeis University and Southeastern Massachusetts University hosts), November 13, 1982; New York at

## Mustang surprises

Southern Methodist's No. 1 player Rodney Harmon pulled a series of upsets against favored professional players on his way to the quarterfinals of the 1982 U.S. Open Tennis Championships. The Mustang junior was eliminated from the tournament by eventual champion Jimmy Connors.

## Author examines attitudes, values of players in youth hockey leagues

"The Professionalization of Young Hockey Players," by Edmund W. Vaz (University of Nebraska Press, 218 pages, \$17.95).

Life in the highly structured Canadian ice hockey leagues for boys is the focus of Vaz's study. He surveyed nearly 2,000 youngsters (ages seven to

### Book report

18) in those leagues to examine their attitudes and values and to determine their performance levels at each stage in their early careers.

Vaz cites three aims of his study, including an attempt to show "how rules infractions and certain forms of violence are institutionalized among players in the minor and junior leagues."

In addition, he hopes to call attention to what he terms the "irony of expecting young players to respect the rules of the game although they are given no formal instruction in obeying rules."

His final objective is to demonstrate that violation of the rules is an outcome of the structure of the system. Vaz declares that "a major function of playing organized hockey is that youngsters learn to appreciate the value of violating the rules."

Vaz gathered his data by talking to players and coaches during the winter of 1969-70. He collected most of the information in dressing-room discussions but also through traveling with teams to out-of-town games, sitting on the bench during games and attending practices. He supplemented this data

collection with a series of partially structured interviews and a pretested questionnaire.

Vaz concludes that hockey "artistry" is suffering under the current style of play while rule infractions and violence are becoming more common. He believes it is essential that youth leagues should systematically teach players to obey the rules and reward them for so doing.

The book includes a scoring system proposed by Vaz that would adjust each game's score based on the penalties assessed to the participating teams.

Notes and a thorough bibliography are included in the book, along with an appendix of 18 tables that supplement the material in the text.

## Baseball turning to colleges

Nearly half of today's major-league baseball players played at least one year of college baseball.

That is the result of a survey conducted by professional baseball, based on the 1982 rosters. The study showed that 325 of the 682 players, or 48 percent, had played college baseball.

As reported in the June 16 issue of The NCAA News, the annual major-league draft now primarily consists of college players, whereas a few years ago primarily high school players were being drafted. The trend in those reaching the Major Leagues appears to be similar, since just 40 percent of the major leaguers in 1977 had played college baseball. The percentage dropped to 39 in 1980, but then increased to 42 percent in 1981 and 48 percent this year.

Some of the current major leaguers who played four years of college baseball include Barry Bonnell (Ohio State), Paul Molitor (Minnesota), Jeff Reardon (Massachusetts), Steve Rogers (Tulsa), Ozzie Smith (Cal Poly-Pomona) and Dave Winfield (Minnesota).

Others, who competed for less than four years, include Floyd Bannister

(Arizona State), Cecil Cooper (Prairie View A&M), Andre Dawson (Florida A&M), Tim Lollar (Arkansas), Tippy Martinez (Colorado State), Jason Thompson (Northridge State) and Tim Wallach (Fullerton State).

Steve Garvey (Michigan State), Tom Seaver (Southern California) and Reggie Jackson (Arizona State) are other products of college baseball.

## Film available

An officiating instructional film, produced for individuals or groups associated with the enforcement of football rules, is available from the NCAA Library of Films.

The 16-millimeter film titled "Sportsmanship: A Question of Attitude" was produced by NCAA Productions in conjunction with the Football Rules Committee and the American Football Coaches Association.

The 17-minute film uses game footage and demonstrations by David M. Nelson, secretary-rules editor of the committee.

The film sells for \$150 and can be purchased by contacting the NCAA Library of Films at 816/471-7800.

# Criteria approved for attendance

The NCAA officers and Council have approved a series of interpretations and questions and answers regarding specific situations in an effort to reaffirm and clarify the criteria for determining football attendance at Division I-A institutions.

The following material has been developed in response to questions from the membership regarding the requirements in Bylaws 11-1-(e)-(3), (4) and (5) and Official Interpretation 1100.

## Case No. 402

**Situation:** O.I. 1100 sets forth procedures to be utilized in computing home football game attendance figures in order to meet Division I-A football criteria.

**Question:** What are the definitions of "regularly established prices" and "discount prices" for purposes of this legislation?

**Answer:** A "regularly established price" is a price that is: (a) established prior to the season; (b) at least 50 percent of the face value of the highest priced ticket sold, and (c) printed on the face of the ticket. Season tickets sold at a discount of not more than 50 percent of the highest priced ticket sold shall qualify as tickets sold at regularly established prices. Any ticket sold that does not meet these criteria is a ticket sold at a "discount price," in which case the ticket holder is required to attend the game in order to be counted. Any ticket sold for less than 33 1/3 percent of the face value of the highest priced ticket sold for the game may not be used in counting attendance for compliance with Bylaw 11-1-(e). [Bylaws 11-1-(e)-(3), (4) and (5)-(ii), O.I. 1100]

The NCAA Council has approved the following additional requirements concerning the calculation of paid attendance to meet the criteria set forth in NCAA Bylaw 11-1-(e)-(3), (4) or (5)-(ii):

1. An established method of verification must be utilized to confirm student attendance at each game by any institution that counts in attendance each student who either (a) pays an athletic fee or an institutional fee, a portion of which is allocated to the department of intercollegiate athletics, or (b) pays no athletic fee, but the institution allocates to the department of athletics a certain portion of tuition income or general operating funds. In such circumstances, the student actually must attend the game in order to be counted.

2. Student athletes and cheerleaders scheduled by the institution to be at the game and students performing services at the stadium (e.g., concessionaires, ticket-takers, parking-lot attendants, ushers, groundskeepers) shall not be counted toward meeting the attendance requirements. (Members of the band in uniform may be counted in accordance with paragraph 1 above.)

3. Any institution utilizing Bylaw 11-1-(e)-(3), (4) or (5)-(ii) must undertake an annual, certified audit verifying its football attendance. The certi-

fied audit and materials (including the ticket manifest) must be available for inspection throughout each pertinent four-year period.

\* \* \*

The following questions and answers concerning the Division I-A football attendance criteria have been approved by the NCAA officers:

**Question:** What are the established methods of verification that may be utilized to confirm student attendance at each game by an institution that counts attendance for each student who pays an appropriate fee or whose institution allocates to the department of athletics a certain portion of tuition income or general operating funds per O.I. 1100?

**Answer:** Such attendance must be verified through one of the following methods: (a) Such students are issued tickets that are collected upon admission to the game and retained; (b) such students enter through and are counted by a turnstile (which is not utilized by others in attendance) that is monitored by a representative of the department of athletics who verifies in writing the accuracy of the count on a per-game basis, or (c) such students enter through a gate (which is not utilized by others in attendance) at which a representative of the department of athletics counts them individually with a manual counter, and the representative provides a written statement verifying the accuracy of the count on a per-game basis.

**Question:** How are students who purchase season or individual-game tickets (but who do not pay an appropriate fee and whose institution does not allocate to the department of athletics a certain portion of tuition income or general operating funds per O.I. 1100) counted in meeting the attendance criteria?

**Answer:** The same procedure used for counting ticket sales to and attendance by the general public would be applicable.

**Question:** If members in uniform of the institution's band enter the stadium other than through the gates utilized by other students, how may their attendance at each game be verified?

**Answer:** Such attendance must be verified through one of the following methods: (1) Band members are issued tickets that are collected upon admission to the game and retained, or (2) the institutional staff member who serves as director of the band provides a list of those band members who attend each game and verifies in writing the accuracy of the list on a per-game basis. In order to be counted as paid admissions in accordance with these methods, members of the band must be students who pay an appropriate fee or whose institution allocates to the department of athletics a certain portion of tuition income or general operating funds per O.I. 1100, or they must purchase season or individual-game tickets and be countable in accordance with the standards adopted by the NCAA Council concerning ticket sales to and attendance by the general public.

**Question:** How may the attendance of students in other special groups that occupy seats in the stadium (e.g., card section, pep club) be verified?

**Answer:** Such attendance must be verified in accordance with the requirements for verifying the attendance of members of the student body in general.

**Question:** In meeting the four-year attendance requirement of Bylaw 11-1-(e)-(3) or (5)-(ii), must an institution achieve the required number in each of the four years or can it achieve the required number as an average for the entire four-year period?

**Answer:** An institution may average its attendance for all countable games over the applicable four-year period in order to demonstrate compliance with the appropriate bylaw requirement.

**Question:** How may the attendance of individuals who have purchased tickets at a "discount price" (as defined by the NCAA Council) be verified?

**Answer:** Tickets sold at a "discount price" must be permanently marked to distinguish them from tickets sold at "regularly established prices." The discount-price tickets must be collected upon use for admission to the game, counted and retained.

**Question:** If an institution permits a civic group or service organization to sell tickets to the institution's football game, and to receive a portion of the sale price, how would such tickets be treated in applying the NCAA Council's criteria for determining paid attendance?

**Answer:** Inasmuch as the outside organization receives a portion of the face value of the ticket and the institution does not receive the ticket's full value, it must be treated as a ticket sold at a "discount price," must be permanently marked to distinguish it from a ticket sold at a "regularly established price" and, in order to be counted in the paid-attendance, must meet the requirements established by the NCAA Council for "discount-price" tickets.

**Question:** May tickets for which no cash payment is received by the institution (e.g., tickets provided in exchange for goods or services, tickets provided to the visiting team) be counted toward meeting the paid-attendance criteria?

**Answer:** No.

**Question:** Will each Division I-A member institution be required to submit to the NCAA national office attendance figures for each football season?

**Answer:** Yes. The NCAA national office annually will request such figures shortly after the end of each football season.

## Interpretations

**EDITOR'S NOTE:** Publication of an interpretation in this column constitutes official notice to the membership. Questions concerning these or other O.I.s should be directed to William B. Hunt, assistant executive director, at the Association's national office (P.O. Box 1906, Mission, Kansas 66201; 913/384-3220).

### Special performance award (Revises Case No. 97)

**Situation:** NCAA legislation prohibits a student-athlete from receiving an individual award in recognition of a specialized performance in a particular contest or event.

**Question:** In this situation, would it be permissible for a student-athlete to receive a certificate or plaque valued at less than \$50 in recognition of such a performance?

**Answer:** Yes. An organization (such as a business firm or other outside agency) may recognize a student-athlete for outstanding performance in a particular contest in this manner; however, it would not be permissible for such an organization to provide any other tangible item or award to the student-athlete under these circumstances. [C 3-1-(i)-(3)]

### Prospect on college game telecast (Revises Case No. 197)

**Situation:** During the telecast of an institution's intercollegiate contest, the station televising the game proposes to show a videotape of competition involving high school or junior college players.

**Question:** Could the institution permit the television station to show the videotape of the competition under NCAA legislation?

**Answer:** No. A prospective student-athlete may not be interviewed or otherwise featured in any type of telecast involving a member institution. [B 1-4-(c)]

### Campus visit—meals Case No. 233

**Situation:** A prospective student-athlete visits an institution's campus and is housed in a motel inasmuch as campus housing facilities are not available.

**Question:** Must the prospect eat meals on the campus if facilities are available rather than at the motel where the prospect is housed?

**Answer:** Yes. [B 1-8-(j)-(1)]

### GED scores (Revises Case No. 335)

**Situation:** A prospective student-athlete does not graduate from high school but subsequently completes the General Education Development (GED) test and obtains a state high school equivalency diploma.

**Question:** By what means may the prospect establish eligibility for practice, participation and athletically related financial aid under the provisions of Bylaw 5-6-(b) [2,000 rule]?

**Answer:** The prospective student-athlete's high school grade-point average may be determined through use of an Association-approved table that converts the average of the five GED scores to the high school grade-point average. Only scores from a GED test taken by the student-athlete after one calendar year has elapsed from the date the student's high school class (the last class of which the student was a member while enrolled in high school) normally graduates shall be utilized. [B 5-6-(b)]

## Tech offers athletic course

Georgia Institute of Technology will offer an undergraduate degree in athletic administration, or at least courses in athletic administration within the management school, by the fall of 1983.

Georgia Tech believes that it will be only the second university in the country to initiate such a program. The University of Massachusetts also has this program in its undergraduate school.

The program is being designed by Georgia Tech Athletic Director Homer Rice, who has his doctorate in sports administration. "We don't know what we're going to call it yet," Rice said, "but we're excited about the possibilities."

"The degree certainly would be an attraction to athletes, but it would also be an attraction to all students," Rice said. "People don't realize the need for top management in these fields. They don't see the big business behind sports in this country."

Rice does not have a definite timetable for the sports administration course, but he hopes Georgia Tech will be able to offer it within the next 12 months.

## Nicholls State approves terms

Nicholls State University has accepted the terms for membership in the Trans America Athletic Conference, even though the basketball team will not be eligible for postseason competition until the 1985-86 season.

The Trans America Athletic Conference imposed this restriction on Nicholls State because all members of a conference must be classified Division I for five years for the conference to be eligible for an automatic NCAA tournament berth. Nicholls State has been Division I only two years.

Southeastern Louisiana University, another new member of the Trans America Conference, has not announced whether it will accept this condition.

Nicholls State will be eligible for conference championships in all other sports.

## Tennessee plans basketball arena

The University of Tennessee, Knoxville, plans to hire an architect for its proposed 25,000-seat basketball arena following recent approval by Knox County commissioners of an increase in the county's hotel-motel and amusement taxes.

The tax increase will pay for a bond sale that would raise \$10 million, or one-third of the building's price tag.

The university and the state are to raise another \$20 million for the structure, which is to be the largest in the Southeastern Conference and one of the largest in the country.

## Lets you start small but... THINK BIG

Start with one or more low-cost 5-row sections and add on as budget permits. Up to 25 rows high and any length, using just 4 basic frames (plus planks, guard rails, braces, stairways as required). Easy to assemble and move. Bleachers conforming to any code priced on request. Call or write for details.

# Allocations approved in cross country

Team and individual allocations for this fall's division championships in women's cross country have been approved by the NCAA officers. Following are the allocations for the 1982 championships.

In Division I team competition, two teams will qualify from each of the following districts: 2, 3, 4, 5 and 8. In Districts 1, 6 and 7, one team will qualify from each district. Three additional teams will be selected at large.

The selection criteria for the at-large teams will take into account the strength of conference competition.

head-to-head results of teams that are being considered for at-large berths, or that have qualified as automatic entries, and the strength of district competition.

Three individuals from each district also will qualify for the national championships, with certain limitations. In Districts 1, 6 and 7, the three individuals must finish in the top 10; and, in Districts 2, 3, 4, 5 and 8, those individuals must finish in the top 15. Should three or more teams qualify from a district, the individuals qualifying from that district must finish in the top 20.

In Division II, one team will qualify from each of the following regions: Southeast, Great Lakes, North Central and South Central. One at-large team also will be selected, and the field will be completed with two teams from the Northeast region and three teams from the West region.

Three individuals from each region also will qualify for the national championships, but those individuals must finish in the top 15 places in the Northeast and West regions. Individuals qualifying from the remaining regions must finish in the top 10 places.

Team qualifiers from Division III will include two teams each from the Mideast, Central, Midwest and West regions. In addition, one team will qualify from each of the following regions: New England, New York, Great Lakes and Southeast/South.

In the New England region, eight individuals may qualify but must finish in the top 20 places. All other individual qualifiers must finish in the top 15 places, based on the following allocation: Great Lakes, Central and Midwest—four each; New York, Mideast, Southeast/South and West—three each.

## Pacific-10 seeks scholarship cut

The Pacific-10 Conference will ask the NCAA Convention next January to cut the number of students on football scholarships at Division I-A institutions from 95 to 80.

David Price, Pacific-10 assistant executive director, said the proposed reduction would take place gradually, probably over three or four years. He said the conference would propose maximums of 30 awards in one year and 50 over any two-year period. No students would be forced to give up scholarships already granted.

## The NCAA News

## NCAA Record

### DIRECTORS OF ATHLETICS

ALDO SEBBEN has moved from AD at Southwest Missouri State to a position as coordinator of athletics, a supervisory position in the university administration. BILL ROWE, Southwest Missouri State baseball coach and assistant AD, has been named acting men's AD. JIM HATFIELD named AD and men's basketball coach at Hardin-Simmons. Hatfield was an assistant basketball coach last year at Tennessee-Chattanooga and previously had been head coach at Southwest Louisiana and Mississippi State.

### PRIMARY WOMEN ATHLETIC ADMINISTRATORS

JUDY PEEL resigned at North Carolina-Wilmington to enter private business. She has been replaced on an interim basis by JACKIE BARTLETT. LINDA L. ARENA appointed at Wittenberg to replace the retired BETTY J. DILLAHUNT. Arena had been on the staff at Brockport State, where she coached field hockey, bowling and synchronized swimming.

### ASSOCIATE DIRECTOR OF ATHLETICS

IRWIN M. COHEN promoted at Northeastern from post as assistant AD. He will continue to coach the track team.

### ASSISTANT DIRECTORS OF ATHLETICS

JOHN A. FREEMAN and JAMES A. CALHOUN named at Northeastern. Freeman was promoted from his job as an assistant to the AD, while Calhoun will continue to coach the men's basketball team. DIANE L. POTTER resigned at Springfield. She will remain on the faculty and coach the women's softball team. SUSAN WALTHALL named at Christopher Newport, where she will continue to coach the women's basketball and softball teams.

school. JANET FLORA, a former professional star and head coach at Goucher, named the first head coach at Baltimore.

**Women's basketball assistants**—RUDY HAMPTON and EDDIE VAUGHN appointed at Mississippi State. Both are former high school coaches. BARBARA THAXTON and WENDY LARRY named at Old Dominion. Larry had been on the Old Dominion staff for three years as a part-time assistant, while Thaxton had coached eight years at Wilbur Cross High School in New Haven, Connecticut. MARTHA KURTZ hired at Yale. She also will serve as assistant field hockey and women's lacrosse coach. JEFF COHEN and GINGER ROUSE chosen at Auburn. Cohen is a former Arkansas assistant, and Rouse is a former all-conference player at North Carolina State. KATHY O'NEIL named at St. Michael's (Vermont).

**Men's cross country**—DONALD CATHCART named to head both the men's and women's programs at Salisbury State. He coached the women's squad last year. RALPH THORNE selected to head both programs at Lebanon Valley.

**Field hockey**—KAREN WEAVER named at Salisbury State, where she also will coach the women's lacrosse team. She is a former all-America goalie at Lock Haven State. KATHY O'NEIL hired at St. Michael's (Vermont), where she also will serve as assistant basketball coach.

**Field hockey assistants**—CARLA HESLER, a former all-America at New Hampshire and a member of the U.S. national team, hired at Old Dominion. MARTHA KURTZ named at Yale. She also will assist with the women's basketball and lacrosse programs.

**Football**—MIKE MCGLINCHY appointed at Salisbury State, where he was assistant head

Brown. Trivett, a former all-Ivy League star at Cornell, will work with the varsity, while Bowdoin graduate Eccleston will handle the junior varsity. MARK CANAVAN named at Bentley, his alma mater.

**Men's lacrosse**—HANK JANCZYK hired at Salisbury State, where he also has been named defensive coordinator on the football staff.

**Women's lacrosse assistant**—MARTHA KURTZ selected at Yale. She also will work with the women's basketball and field hockey teams.

**Men's skiing**—BEN MCDIVITT and PETER NOONAN named coaches for the men's and women's teams at St. Michael's (Vermont). McDivitt primarily will work with the cross country team, while Noonan will handle the Alpine squad.

**Men's soccer**—BEN MCDIVITT chosen at St. Michael's (Vermont), where he also will work with the skiing program. SETH ROLAND selected at Christopher Newport. MICHAEL AMICONE hired at Muskingum. He was a four-year letterman at the school and has coached on the high school level.

**Men's soccer assistants**—WAYNE GRANT, a three-time all-New England pick during his playing days at Bridgeport, named at his alma mater. LINDSEY DEAN, formerly the freshman coach at Springfield, appointed at Curry.

**Women's soccer**—PAUL CARACI selected at Rochester Tech. He has been an assistant men's coach at the school. DOUGLAS J. WILLIAMSON, an assistant last year at Massachusetts Institute of Technology, chosen at Curry. CHRIS MALONE, after three years at Virginia, has taken the head coaching job at Cortland State.

**Women's softball**—BETH ANN COFFEY, a former high school softball coach and entering her second year as head women's swimming coach at Niagara, named to head the Lady Eagles' softball program. JANET JONES appointed at Rochester Tech, where she served as an assistant last year.

**Men's swimming**—WARREN HAMMER named at Rochester.

Assistant cage coach Steve Yarnell moves from Cornell to Yale

Old Dominion coach Beth Anders selected for U.S. field hockey team

### STAFF

**Academic advisor**—George Ivey appointed at Rochester.

**Administrative assistant**—F. G. THURMAN named at Southwestern Louisiana. Thurman had been principal at New Iberia (Louisiana) High School.

**Equipment managers**—JIM SHEALY, formerly at Tennessee-Martin, hired at Southwestern Louisiana. STEVE SHORES selected at Southwest Missouri State.

**Promotion directors**—JOAN BLUMENTHAL named at Oklahoma, where she has coached the women's golf team for seven years. JIM LAMPARIELLO resigned at Seton Hall to accept a position as director of public relations for the New Jersey Nets of the NBA.

**Sports information director**—HAL WILLARD named at St. Mary's (Maryland). He will continue to coach the baseball team.

**Assistant sports information directors**—DOUG IRELAND hired at Southwestern Louisiana, after serving as a bureau chief for the Shreveport (Louisiana) Times. MARY DILLON and FRANK MACK named at Old Dominion.

**Strength coach**—BILL DANENHAUER, a former Nebraska-Omaha lineman, named at his alma mater.

**Athletic trainers**—SIDNEY WELLES chosen at St. Mary's (Maryland). She previously was on the staff at Navy. CHRISTINE JONES named at Christopher Newport. KATHERINE PIROG, a former assistant at Trenton State, named head women's trainer at Bridgeport.

**Assistant athletic trainers**—GORDON COOLE chosen at New Hampshire, where he was a student assistant last year.

### DEATHS

THAD "PIE" VANN died September 7 in Jackson, Mississippi. Vann coached Southern Mississippi's football team for 20 years from 1949 to 1968. He had a career record of 139-59-2.

Former Washington star RUDY MUCHA died September 7 in his native Chicago. After his career with the Huskies, Mucha was a standout guard for the Chicago Bears of the NFL.

### NOTABLES

KARL-HEINZ HEDDERGOTT has been appointed director of coaching for the United States Soccer Federation, effective January 1, 1983. Heddergott formerly was director of coaching for the West German soccer federation and head coach of FC Cologne in the German Bundesliga. Five collegiate coaches and one current student athlete have been named to the U.S. national field hockey team, which will take on the Netherlands, Australia and New Zealand next month in Boston in the American Cup competition. Coaches BETH ANDERS (Old Dominion), CHRIS LARSON MASON (Williams), ANITA MILLER (Long Beach State), DIANE MOYER (Villanova) and KAREN SHELTON (North Carolina) were named to the squad along with Massachusetts senior JUDY STRONG.

### CORRECTION

Due to a reporter's error, Tom O'Connor was incorrectly identified as an assistant director of athletics and men's basketball coach at Loyola (Maryland) in the September 6 NCAA Record. He is the director of athletics. Bill Burke was the assistant AD and basketball coach, who has resigned.

Bill Rowe named acting men's AD at Southwest Missouri State

Northeastern promotes Irwin M. Cohen to associate AD

### COACHES

**Baseball**—AL STOCKHOLM chosen at Cortland State to replace the retiring BOB WALLACE. Stockholm has been on the faculty at the school for 15 years and previously coached the men's basketball and tennis teams. PAT QUINN has moved from Cincinnati to Ball State.

**Baseball assistants**—DAN RADISON named at Old Dominion. He had spent two years on the Georgia coaching staff. CRAIG ROBINSON chosen at Southwestern Louisiana. MARK SCALF appointed at North Carolina-Wilmington.

**Men's basketball**—JIM HATFIELD named at Hardin-Simmons, where he will double as AD. GREGORY VAUGHN hired at Medgar Evers, after five years as an assistant at Queen's.

**Men's basketball assistants**—CHARLES CONWAY named at Medgar Evers, where he played for four years (1975-78). STEVE YARNELL selected at Yale, after two years on the staff at Cornell. GENE NIEBERLEIN, a former Rutgers player, named to the Scarlet Knight staff. MIKE RILEY appointed at Georgetown (D.C.). TIM FRANKLIN named at Old Dominion. JOHN BRADY has left his successful program at Crowley (Louisiana) High School to join the staff at Mississippi State.

BOBBY MARTIN has replaced JOHN HASKINS, who went into high school coaching, at North Carolina-Wilmington. GREG SULLIVAN appointed at Brooklyn.

AL SKINNER named at Marist. GLENN RIGNEY and JIMMIE BURCHETTE selected at North Carolina-Greensboro. PHIL NESS has left Northeastern to join the staff at Brown.

ERNEST L. NEAL, assistant at Gaithersburg (Maryland) High School and a former assistant at Austin Peay State, named at Longwood.

**Women's basketball**—ANTHONY WITHERSPOON, for four years an assistant at Clark (Georgia), appointed head coach at the

coach last fall. He will vacate his position as wrestling coach.

**Football assistants**—HANK JANCZYK named defensive coordinator at Salisbury State, where he also will head the men's lacrosse program. TOM LANDSITTEL named offensive coordinator at Miami (Ohio). He will continue to work with the offensive tackles and tight ends, a job he has had for the last four years at Miami (Ohio). MIKE TERWILLIGER promoted from part-time to a full-time position at East Stroudsburg State. Former Holy Cross star ROBERT RONCARATI named at Curry.

JOE WIRTH has left his post as head coach at Union (New York) to return to Brown as assistant head coach and defensive coordinator. He coached the Bruins' defensive line from 1973 to 1979. KEN RUCKER, LARRY SLADE, JIM TAUBERT and LARRY MCDANIEL appointed at Richmond.

**Men's golf**—SAM ADAMS, a 1968 graduate of Appalachian State, appointed at his alma mater. He has been a member of the PGA tour for the past nine years.

**Women's golf**—JOEL FURNARI named at Appalachian State. Furnari also will continue as a part-time assistant on the women's basketball staff.

**Men's gymnastics**—ERIC MALMBERG has been reappointed at Cortland State, where he coached from 1977 to 1980 before leaving to pursue a business career.

**Women's gymnastics**—NANCY LEGANT chosen at Wisconsin-Milwaukee. She has coached at Springfield, in Venezuela and at the club level.

**Men's ice hockey**—LOU DIMASSI, a former captain at Norwich and head coach the last three years at Middlebury (Vermont) High School, named at St. Michael's (Vermont).

**Men's ice hockey assistants**—MARK TRIVETT and TOM ECCLESTON appointed at

September 20-21	Special Committee on Legislative Review, Kansas City, Missouri.
September 21-22	All-Star High School Games Committee, Kansas City, Missouri.
September 21-22	General Television Committee, Chicago, Illinois.
September 27	Insurance Committee and Competitive Safeguards and Medical Aspects of Sports Committee, Kansas City, Missouri.
September 27-28	Chief Executive Officers meeting, Kansas City, Missouri.
October 11-12	Divisions I, II and III Steering Committees, Kansas City, Missouri.
October 13-15	Council, Kansas City, Missouri.
November 8-11	Baseball Committee, Kansas City, Missouri.
December 1-3	Division I Men's Basketball Committee, Seattle, Washington.

## Newsworthy

Only two players in NCAA Division I-A history have caught 50 passes and gained at least 1,000 yards rushing in the same season. Stanford's Darrin Nelson did it three times (1977, 1978, 1981). Can you name the other West Coast back who did it twice during his career?

## Pacific-10 looks for director

The position of executive director of the Pacific-10 Conference is being sought by more than 200 candidates.

John R. Davis of Oregon State University, who chairs the conference search committee, said the committee will meet in October to narrow the list to three to five candidates. The executive director's position will become vacant upon the retirement of Wiles Hallock in February 1983.

The finalists will meet with the presidents and faculty representatives from the conference's member institutions in December.

The conference placed display advertising seeking applicants for the position in *The Wall Street Journal*, *The New York Times* and *Los Angeles Times*, as well as *The NCAA News*. The Pacific-10 also sent letters describing the job opening to all Division I-A conferences and institutions.

## Coaches approved for Olympics

The United States Olympic Committee Executive Board has approved the following coaches for the Olympic and Pan American Games teams: Bobby Knight, Indiana University, Olympic men's basketball; Pat Summitt, University of Tennessee, Knoxville, Olympic women's basketball; Jack Hartman, Kansas State University, Olympic men's basketball; Harvey Newton of Colorado Springs, Colorado, Olympic and Pan American weightlifting; Lou Vairo of Colorado Springs, Olympic ice hockey.

Gerald Willhite, San Jose State, 1980 and 1981.

## Amendments due soon for Convention

Member institutions are reminded that the deadline for submission of proposed amendments for the 1983 NCAA annual Convention is Monday, November 1.

Unless sponsored by the NCAA Council, any legislation must be proposed by six active member institutions. Instructions and forms to be utilized in submitting amendments were mailed in September.

The procedures for proposing NCAA legislation are set forth in Constitution 7-1 and Bylaw 13-1, pages 42 and 139 of the 1982-83 NCAA Manual.

In addition to the six-sponsor requirement, proposed amendments must be received in the national office by November 1. Any submission received after that date must have been sent by certified or registered mail postmarked not later than October 25.

All properly submitted proposals will be included in the Official Notice of the 77th NCAA Convention, which will be mailed from the national office not later than November 22.

Questions regarding specific amendments or the legislative procedure in general should be directed to Stephen R. Morgan, director of legislative services, at the national office.

## Louisiana State to begin network

All Louisiana State University sports events will be available to most television cable subscribers in that state under a university network plan similar to the sports channel inaugurated last year by the athletic association at Wichita State University (June 16, 1982, *The NCAA News*).

All events will be shown on a tape-delay basis, beginning with the football season opener last week. Athletic Director Robert Brodhead said the network's output will be available on a pay basis, similar to movies and other cable services for which viewers pay a separate fee.

"I am very excited about this because, all of a sudden, there is no such thing as a nonrevenue sport," Brodhead said. "All of our sports become instant money-makers."

The football announcers will be Paul Hornung and Jim Taylor.

## Groups to discuss injuries

Efforts by the NCAA to deal with catastrophic injuries to athletes are expected to be advanced through a special meeting September 27 in Kansas City involving members of the NCAA Insurance Committee and the NCAA Committee on Competitive Safeguards and Medical Aspects of Sports.

The meeting will include a discussion of the merits of an insurance approach to protect and adequately take care of athletes who suffer catastrophic injuries. The groups also will discuss whether establishing a national rehabilitation foundation is realistic.

All current members of the NCAA Insurance Committee, along with a subcommittee of the competitive safeguards committee, are expected to be in attendance. The outgoing chairs of those committees, Kenneth W. Herrick and Fred L. Miller, have been asked to attend as consultants.

Representatives of several insurance companies also will provide information.

## The Market

Readers of *The NCAA News* are invited to use *The Market* to locate candidates for positions open at their institutions, to advertise open dates in their playing schedules or for other appropriate purposes.

Rates are 35 cents per word for general classified advertising (agate type) and \$17.60 per column inch for display classified advertising. Orders and copy are due seven days prior to the date of publication for general classified space and 15 days prior to the date of publication for display classified advertising. Orders and copy will be accepted by telephone.

For more information or to place an ad, call 913/384-3220 or write NCAA Publishing, P.O. Box 1906, Mission, Kansas 66201.

### Positions Available

#### Athletic Director

**Athletic Director:** Search reopened. Maryville College-St. Louis invites applications and nominations for the position of athletic director. Maryville sponsors athletic programs in both men's and women's sports at the Division III level. The athletic director reports to the vice president for student affairs and is responsible for the management, planning, promotion and coordination of all activities and facilities associated with intercollegiate athletics, consistent with NCAA and college rules and regulations. The athletic director supervises all coaches and also coaches one major sport on campus. **QUALIFICATIONS:** Administrative experience in athletics or related area, fiscal management, and interpersonal relations are expected. Advanced degree preferred. **SALARY:** Commensurate with background and experience. Position is an 11-month appointment. Please submit

cover letter, detailed resume, and names and telephone numbers of three references by October 22, 1982, to: Mrs. Dianne Lammert, Director of Personnel, Maryville College-St. Louis, 13550 Conway Road, St. Louis, Missouri 63141. AVEOE.

#### Sports Information

**Sports Information Director:** Oakland University is seeking applicants for the position of sports information director. A bachelor's degree in journalism, marketing, or related field; two years' experience in sports information, public relations, or news writing; and an in-depth knowledge of sports is necessary. Apply for application before September 27 to: Employment Office, 141 North Foundation Hall, Rochester, Michigan 48063 (313/377-3480). **OAKLAND UNIVERSITY—AN AFFIRMATIVE ACTION/EQUAL OPPORTUNITY INSTITUTION.**

**Assistant Sports Information Director:** Will assist the director of a sports information office at an NCAA Division I level institution in the areas of publications, office operations and event management, with specific responsibility for women's basketball and nonrevenue sports. **Qualifications:** Bachelor's degree or an equivalent combination of education

and experience, one to three years' experience in college or university sports information or a related field, with demonstrated proficiency in working with broadcast and print media. Minimum salary offer \$15,000. Excellent benefits. Contact Tom Hathaway, Sports Information Director, University of Cincinnati, Mail Location 21, Cincinnati, Ohio 45221. Application deadline: October 8, 1982.

#### Other Positions

**Positions Available:** Assistant Athletic Director (closing date 9/10/82); women's basketball coach—nine-month position (closing date 9/20/82); tennis coach—nine-month position (closing date 10/1/82). Send complete resume to William E. Narduzzi, Youngstown State University, Youngstown, OH 44555. Phone 216-742-3479.

Carbondale, Illinois 62901

Application deadline:  
November 1, 1982

### EXECUTIVE DIRECTOR Pacific-10 Conference

The Council of the Pacific-10 Conference invites nominations and applications for the position of Executive Director, the appointment to become effective July 1, 1983.

The Executive Director is responsible for advancing the affairs of the Pacific-10 Conference in a manner consistent with the aims, purposes, and principles of its member institutions. Specific responsibilities involve leadership and direction for financial relations, marketing and development, contract negotiations, investments, long range planning, and promotions; events management, officiating, compliance and eligibility; communications, publications, and sports information; and administration of the Conference office and staff.

Required qualifications include a high level of leadership and administrative ability, with demonstrated experience and proven record in promotions and program development, public relations, personnel and fiscal management, and ability to work effectively with University administrators, athletic directors, coaches, and faculty. Candidates must have a baccalaureate degree, and possess knowledge of intercollegiate athletics, as well as a commitment to academic excellence and integrity in athletics.

Salary will be negotiable, depending upon experience and qualifications. Retirement plan and other benefits are included. The initial term of appointment is a four-year contract, renewable upon mutual agreement.

Applications or any inquiries should be submitted to:

Dr. John R. Davis, Chairman  
Pacific-10 Search Committee  
Oregon State Univ - Ag Hall 127  
Corvallis, OR 97331  
Phone: (503) 754-4251

In addition to a complete resume, application should include names, addresses, and telephone numbers of at least five references. Applications must be postmarked no later than October 10, 1982.

An Affirmative Action, Equal Opportunity Employer.

### New Positions Available at Dartmouth College

October 1, 1982

#### Associate Director of Athletics

##### Facilities, Operation and Employee Programs

Administers the business and support functions for the intercollegiate, physical education, intramural and employee recreation program.

**Qualifications:** Considerable experience in athletic or business administration, particularly as it relates to support functions of an organization; possess outstanding supervisory and organizational skills; computer knowledge/ability helpful; Master's Degree preferred.

#### Assistant Director of Athletics

##### Facilities, Operations and Employee Programs

Assists the Associate Director in administering the business and support functions of the department.

**Qualifications:** Experience in administering recreational programs and support functions for an organization; computer skills helpful; Master's Degree preferred.

#### Assistant Director of Athletics Intercollegiate Programs

Assists the Associate Director of Intercollegiate Programs in the scheduling of contests, the management of home events and the supervision/coordination of enrollment activities for the 32-sports intercollegiate program; directly responsible for coordination of eligibility forms for all intercollegiate athletes and the supervision of the 20-club sports program.

**Qualifications:** Experience in administering or coaching in intercollegiate athletic program; excellent analytical and organizational skills; computer skills helpful; Master's Degree preferred.

**Application Procedures:** Interested candidates should submit a letter of application for a specific position, resume and (3) letters of recommendation by September 24 to:

Seaver Peters  
Director of Athletics  
Dartmouth College  
107 Alumni Gym  
Hanover, New Hampshire 03755

In order to fill these positions by the date specified, selected applicants may be interviewed throughout the advertising period. However, all applicants who file by the deadline date will receive consideration.

Dartmouth College is an Affirmative Action/  
Equal Opportunity Employer.

### Head Swimming Coach University of Texas at Austin Women's Athletics

**Salary:** Negotiable—dependent upon qualifications. One hundred percent time, 12 month. Application deadline October 1, 1982. Position available immediately.

**Qualifications:** Required—demonstrated coaching expertise in the development of nationally competitive performers in swimming. Preferred—bachelor's and master's degrees in physical education or related area. Nationally competitive experience as a performer in respective sports.

**Responsibilities:** Organization and conduct of a nationally competitive swimming sports program including budget preparation, selection of athletic scholarship applicants, fund raising, conduct of workshops and clinics.

Send resume with three letters of recommendation to: Dr. Donna A. Lopiano, Director, Intercollegiate Athletics for Women, UT Austin, BEL 606, Austin, Texas 78712.

UT Austin is an equal opportunity/affirmative action employer

# Council acts on satisfactory-progress rule

Acting on the recommendation of the NCAA Academic Testing and Requirements Committee, the Association's Council has approved several interpretations of the satisfactory-progress rule [Bylaw 5-1-(j)-(6)].

The Council also reviewed and approved criteria adopted by the committee for a number of exceptions to the rule through its authority under Bylaw 5-1-(j)-(6)-(v).

The minimum satisfactory-progress standard, which was adopted at the 1981 Convention, applies to any male student-athlete at a Division I or Division II institution whose initial enrollment in a member institution occurred subsequent to August 1, 1981.

Women student-athletes' eligibility under the rule must be based upon their academic records beginning with the academic year in which the institution first certifies that it will conduct its women's athletic program in accordance with NCAA rules.

Specifically, the Council approved the following interpretations concerning Bylaw 5-1-(j)-(6):

## Credit by examination

Credit awarded by examination may be utilized to meet satisfactory-progress requirements, provided the subject for which the examination is an alternative is offered by the institution as acceptable degree credit.

## Incomplete grades

A student who receives an incomplete grade may use the course in question to fulfill satisfactory-progress requirements once the incomplete grade has been removed in accordance with the institution's regulations applicable to all students and once a grade

acceptable to the institution has been recorded. After the course has been completed, it may be counted only once, either during the term in which it was originally offered or during the term in which the incomplete grade was removed and credit was awarded.

## Repeated courses

A class repeated due to an unsatisfactory initial grade may be utilized only once in meeting satisfactory-progress requirements. The use of a course that may be taken several times (e.g., a physical-activity course) shall be limited by institutional regulations. Credits earned in courses that exceed the maximum degree requirement limitations for courses of that type for all degree programs at the institution may not be counted toward meeting satisfactory-progress requirements.

## Remedial courses

Remedial, tutorial or noncredit courses may be used to maintain satisfactory progress only if the institution considers them to be prerequisites for taking acceptable degree credit courses and gives those classes the same weight as others at the institution in determining the individual's status as a full-time student.

## Limit on noncredit courses

Noncredit courses taken by a student-athlete that exceed the maximum institutional limit on the taking of such courses for any degree programs at the institution may not be used in determining a student's satisfactory progress.

\* \* \*

The Council approved the following exceptions adopted by the committee per Bylaw 5-1-(j)-(6)-(v):

## Missed term

One time during a student-athlete's entire period of collegiate enrollment, the provisions of Bylaw 5-1-(j)-(6)-(ii)-(1) may be prorated at 12 hours per term of actual attendance if the student-athlete misses a complete term or consecutive terms during an academic year subject to the following conditions: (1) the student-athlete engaged in no outside competition in the sport during the academic term or terms in which the student was not in attendance; (2) the student was eligible for enrollment during the student's absence, and (3) the student has fulfilled the satisfactory-progress requirements of Bylaw 5-1-(j)-(6) for the terms the student was in attendance. A transfer student from a junior college is not eligible for this one-time exception during the first academic year of residence at the certifying institution.

## Initial enrollment at midyear

The provisions of Bylaw 5-1-(j)-(6)-(ii)-(1) may be prorated at 12 units per term of actual attendance during the initial regular academic year of attendance for students entering the institution at the beginning of the second semester or second or third quarter of an academic year.

## Medical absence

The provisions of Bylaw 5-1-(j)-(6)-(ii)-(1) may be prorated at 12 hours per term of actual attendance during an academic year in which a student misses a term or terms or is unable to complete a term as a result of an injury or illness. Such an exception may be granted only when circumstances clearly supported by appropriate medical documentation establish that a stu-

dent-athlete is unable to attend a collegiate institution as a result of an incapacitating physical injury or illness.

## International competition

The provisions of Bylaw 5-1-(j)-(6)-(ii)-(1) may be prorated at 12 hours per term of actual attendance during an academic year in which a student is not enrolled for a term or terms as a result of participation in the Pan American, Olympic or World University Games.

## Nonrecruited, nonparticipant

A student-athlete may qualify for a waiver of the application of Bylaw 5-1-(j)-(6) to the initial season of eligibility if the student has been in residence at the certifying institution for more than one academic year, was not recruited, has not received athletically related financial assistance, has never practiced or participated in intercollegiate athletics and is otherwise eligible under all institutional, conference and NCAA rules. The student-athlete's eligibility in subsequent seasons would be governed by the provisions of Bylaw 5-1-(j)-(6).

In addition, the committee also was asked by the Council to consider allowing allied conferences to continue to administer conference satisfactory-progress rules as an exception to Bylaw 5-1-(j)-(6)-(v).

After reviewing requests for an exception from the conferences, the committee determined which conferences would be permitted to administer their satisfactory-progress rules as an exception per Bylaw 5-1-(j)-(6)-(v) until August 1, 1984. After that date, the conferences will be required to demonstrate that their rules produce satisfactory progress toward a degree for student-athletes in the conference in order to continue to receive an exception.

The following conferences were granted an exception: Big Eight, Big Ten, Big Sky, Central Intercollegiate Athletic Association, Far Western Intercollegiate Athletic, Mid-Eastern, Northern California Athletic, Pacific-10, Southeastern, Southern Intercollegiate Athletic, Southland, West Coast and Western Athletic.

## '83 ice hockey rules available from NCAA

The 1983 edition of NCAA Men's Ice Hockey Rules and Interpretations now is available from the Association's publishing department.

The 96-page publication contains complete collegiate playing rules, as well as a separate interpretations section relating to specific situations.

Several major rules changes have been instituted for the 1982-83 season, including a redefinition of the goalkeeper's privileges. A minor penalty now will be imposed on any goalkeeper who, when outside his goal crease area, deliberately falls on or gathers the puck into his body or holds or places the puck against any part of the goal or against the boards.

Previously, these actions were prohibited only when the goalkeeper was outside the crease and the puck was behind the goal line. The change effectively prohibits freezing of the puck by a goalkeeper in what was designated as his "privileged area."

In addition, the minimum distance from the goal line to the end of the rink has been increased to 12 feet, which was the recommended distance last season.

This season's rules also contain an adjustment in the number of players eligible for each game. The new provision permits a maximum of 18 players, plus not more than three nor fewer than two goalkeepers.

In safety-related changes, all play-

ers now are required to wear an internal mouthpiece that covers all the remaining teeth of one jaw. Additionally, it is recommended that all players wear face masks that meet the standards established by the HECC-ASTM F 513-81 Eye and Face Protective Equipment for Hockey Players Standard. Adherence to the F 513-81 standard will be mandatory beginning with the 1984-85 season.

Pucks used by collegiate teams now must be black in color, and any logo placed on the puck must not exceed 3/4 inches.

Because of concern about face-off problems, Rule 6-12 was amended to require more stringent adherence to existing regulations. Players now must have their stick blades on the ice in contact with the designated marking when a face-off is taking place.

Another concern this year was addressed in a new provision that prohibits, when a stoppage of play occurs, players on the attacking team from entering the end zone farther than the outer edge of the face-off circles nearest the blue line.

The interpretations section addresses several new specific situations and includes instructions for correct rink measurements, in an effort to assist member institutions.

Copies of the 1983 NCAA Men's Ice Hockey Rules and Interpretations can be purchased for \$3 from the NCAA publishing department.

## Decision

Continued from page 1  
marked" Federal funds to be covered by Title IX.

With that decision, Temple University lost a two-year-old legal battle seeking to establish that its intercollegiate athletic program is not subject to Title IX jurisdiction.

In their opinion, the three-member panel of judges cited a decision in August in the same court (Grove City College vs. Bell) that held all the programs and activities at another institution subject to Title IX jurisdiction because students attending the institu-

tion received Pell grants directly from the Department of Education.

This decision was reached despite the fact that the Department of Justice had conceded that Title IX was program specific.

In arriving at its ruling in the Temple case last week, the judges said they were bound by that earlier ruling in the Grove City College case.

Assistant Attorney General Reynolds said the Grove City College case was factually different from the dispute over intercollegiate athletics at Richmond. He did not elaborate.

NCAA counsel William D. Kramer of the firm of Squire, Sanders & Dempsey, Washington, D.C., questioned the validity of the decision of the Third Circuit in the Temple case, noting that the decision "is based solely on the ruling of another panel of the same court in the Grove City College case, which is inconsistent with the Supreme Court decision in the North Haven case that Title IX is program specific and not institutional in scope."

"The Richmond decision is consistent with the two other Title IX athletics cases decided thus far."

## Enforcement

Continued from page 1

ber of contests or playing dates in each NCAA sport, using data from a survey of the membership conducted earlier this year. The committee also will consider proposing that NCAA championships be scheduled at times when the majority of member institutions are not conducting final examinations.

In another referral from the August Council meeting, the committee will reconsider its earlier recommendation that limitations be placed on the number of women student-athletes who can receive equivalency awards in each Division I sport. Member institutions have expressed concerns regarding

that approach.

The committee also will continue its review of rules governing men's and women's athletics to determine if it wishes to propose any additional legislation for consideration at the 1983 Convention. It will be the committee's final meeting before the November 1 deadline for submitting legislation.

One new member joined the committee for this meeting. Laurence C. Keating, director of athletics at Adelphi University, was appointed by the officers to a Division II vacancy on the committee, created by the retirement of John Chellman at Indiana University of Pennsylvania.

## Howard named managing editor of NCAA News

Bruce L. Howard, an NCAA publications editor for the past three years, has been named managing editor of The NCAA News, replacing David Pickle.

A 1977 journalism graduate at North Texas State University, Howard was assistant sports information director at his alma mater for two years before joining the NCAA staff.

Pickle, who had edited the News since October 1977, left the NCAA staff September 1 to join the sports department of the Houston Chronicle.

## NCAA seeks

Continued from page 1

would be settled before the start of the 1982 collegiate football season.

"That (delaying a decision until after the beginning of the season) would be unreasonable, and the courts seldom do unreasonable things," Dan Gibbens, Oklahoma's faculty representative, said during the trial.

Reactions to the decision were voiced almost immediately by a number of people, including at least one witness in the trial.

Ira Horowitz, a management professor at the University of Florida and a witness for the plaintiffs, said last week, "I'm not convinced that the schools will make as much money as they think. Because there will be more games (on television), the audience for any particular game will be smaller and advertisers won't be willing to pay as much for commercial time as they are now."

Several people expressed concern that the decision could, in fact, lead to the creation of a college football elite.

Frank Broyles, director of athletics at the University of Arkansas, Fayetteville, said the decision could create "an NFL of college football, and no one else playing. I think it will destroy college football in favor of a very few teams."

Big Ten Conference Commissioner Wayne Duke echoed Broyles' sentiments. "The selfish interests of a few could destroy college football as we know it," said Duke, whose Big Ten institutions are not members of the CFA.

Spokesmen for the three networks involved in the football television plan reserved comment on the ruling, pending an opportunity to review the decision. The networks also telecast September 18 games as scheduled.
